Internal Rating	Definition
1	The borrower is performing above expectations, and the trends and risk factors for this investment since origination or acquisition are generally favorable
2	The borrower is generally performing as expected and the risk factors are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a rating of 2
3	The borrower is performing below expectations and the loan's risk has increased somewhat since origination or acquisition
4	The borrower is performing materially below expectations and the loan's risk has increased materially since origination or acquisition. In addition to the borrower being generally out of compliance with debt covenants, loan payments may be past due (but generally not more than 120 days past due)
5	The borrower is performing substantially below expectations and the loan's risk has increased substantially since origination or acquisition. Most or all of the debt covenants are out of compliance and payments are substantially delinquent. Loans rated 5 are not anticipated to be repaid in full and we will reduce the fair market value of the loan to the amount we anticipate will be recovered

Endnotes

Note: Figures are as of the quarter-ended 6/30/24 unless otherwise noted. Past performance is not a guarantee of future results.

1. Annualized quarterly net investment income or net income divided by average beginning and ending period net asset value.
2. Dividend yield based on annualized Q2 2024 regular dividend of \$0.37 per share payable to shareholders of record as of 6/28/2024, annualized Q2 2024 supplemental dividend of \$0.06 per share payable to shareholders of record as of 8/30/2024, and Q2 2024 net asset value per share of \$15.36 less Q2 2024 supplemental dividend per share of \$0.06.
3. The amount available reflects limitations related to each credit facility's borrowing base.
4. Net of cash.
5. Source: Bloomberg as of 6/28/24.
6. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time. For complete ratings definitions please visit www.standardandpoors.com, www.fitchratings.com, www.moody.com, and www.krillbondratings.com.
7. Borrower financials are derived from the most recently available portfolio company financial statements, have not been independently verified by Blue Owl, and may reflect a normalized or adjusted amount. Accordingly, Blue Owl makes no representation or warranty in respect of this information. This represents 87.4% of our total debt portfolio based on fair value as of 6/30/24 (and 83.1% of our total debt portfolio based on fair value as of 3/31/24) and excludes certain investments that fall outside of our typical borrower profile.
8. Weighted average total yield of the portfolio at fair value. Calculated based on the interest rate and the accretion of OID. OID represents OID earned on the investment by a Blue Owl. Separately, a Blue Owl adviser may engage in certain origination activities and receive attendant arrangement, structuring or similar fees. As such OID could have been higher had the Blue Owl Advisers not collected this fee.
9. Average of the annual net realized gain/loss rates since inception (where the annual net realized gain/loss rate is calculated as the total net realized gains/losses for a particular year divided by the average quarterly investments at amortized cost in such year).
10. Based on period end shares.
11. Dividend amount based on shares outstanding as of record date.
12. Net of debt issuance costs.
13. For non-stated rate income producing investments, computed based on (a) the dividend or interest income earned for the respective trailing twelve months ended on the measurement date, divided by (b) the ending fair value. In instances where historical dividend or interest income data is not available or not representative for the trailing twelve months ended, the dividend or interest income is annualized.
14. Excludes investments made through a joint venture in which OBDC is invested.
15. Assumes each floating rate commitment is subject to the greater of the interest rate floor (if applicable) or 3-month SOFR as of the applicable reporting date.
16. "Net LTV" represents the net ratio of "loan to value" for each portfolio company, weighted based on the fair value of OBDC's loan investment. The "attachment point" is the principal amount of debt that is senior to OBDC's loan investment, and that amount plus the principal amount of the loan in which OBDC invested and other equally ranked debt is the "last dollar" amount. "Value" represents an estimate of enterprise value of each portfolio company, a calculation that will vary by portfolio company.
17. Interest from Investments – Interest Income includes accrued interest and dividend income, amortization of purchase discounts (premiums) and certain fees, and accelerated amortization of upfront fees from scheduled principal payments.
18. Interest from Investments – Other Fees includes prepayment fees and accelerated amortization of upfront fees from unscheduled paydowns.
19. Other Income includes amendment fees, syndication fees, loan origination and structuring fees, and other income.
20. Fair value.
21. Interest rate on debt outstanding excludes the swap-adjusted interest expense related to our unsecured notes where applicable. Average interest rate on debt outstanding excludes net change in unrealized gain (loss) on effective interest rate swaps and hedged items.
22. Par value.
23. The Revolving Credit Facility will mature on 9/3/25 with respect to \$15 million of commitments, 8/26/27 with respect to \$50 million of commitments, and on 11/17/28 with respect to the remaining commitments.
24. Interest rates represent the weighted average spread over 3-month or 6-month SOFR for the various floating rate tranches of issued notes within each CLO, excluding tranches retained by the company in each respective CLO. The weighted average interest rate for each CLO excludes tranches with a fixed interest rate.

Endnotes (Cont'd.)

25. In connection with the note offering, OBDC entered into an interest rate swap to continue to align the interest rates of our liabilities with our investment portfolio, which consists of predominately floating rate loans. As a result of the swap, our effective interest rate on the notes was one-month SOFR plus CSA plus 176.9 basis points, which reflects the current terms.
26. In connection with the note offering, OBDC entered into an interest rate swap to continue to align the interest rates of our liabilities with our investment portfolio, which consists of predominately floating rate loans. As a result of the swap, our effective interest rate on the notes was one-month SOFR plus CSA plus 212.2 basis points, which reflects the current terms.
27. Totals at the top of each bar represents the total quarterly dividend per share (including any supplemental dividends per share) divided by the period end net asset value per share. The Board of Directors must approve each quarter's dividend. In quarters where there was a supplemental dividend, period end net asset value per share is adjusted down by the amount of the supplemental dividend.
28. Supplemental dividend will be capped such that the decline in NAV over the prior 2 quarters plus the supplemental dividend is no more than \$0.15 per share.
