CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements that involve substantial risks and uncertainties. Such statements involve known and unknown risks, uncertainties and other factors and undue reliance should not be placed thereon. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about Blue Owl Capital Corporation (the "Company," "we" or "our"), our current and prospective portfolio investments, our industry, our beliefs and opinions, and our assumptions. Words such as "anticipates," "expects," "intends," "plans," "will," "may," "continue," "believes," "seeks," "estimates," "would," "could," "should," "targets," "projects," "outlook," "potential," "predicts" and variations of these words and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements, including without limitation:

- an economic downturn could impair our portfolio companies' ability to continue to operate, which could lead to the loss of some or all of our investments in such portfolio companies;
- an economic downturn could disproportionately impact the companies that we intend to target for investment, potentially causing us to experience a decrease in investment opportunities and diminished demand for capital from these companies;
- the impact of elevated interest and inflation rates, ongoing supply chain and labor market disruptions, including those as a result of strikes, work stoppages or accidents, instability in the U.S. and international banking systems, and the risk of recession or a shutdown of government services could impact our business prospects and the prospects of our portfolio companies;
- an economic downturn could also impact availability and pricing of our financing and our ability to access the debt and equity capital markets;
- a contraction of available credit and/or an inability to access the equity markets could impair our lending and investment activities;
- changes in base interest rates and significant market volatility on our business and our portfolio companies (including our business prospects and the prospects of our portfolio companies including the ability to achieve our and their business objectives), our industry and the global economy including as a result of ongoing supply chain disruptions;
- interest rate volatility could adversely affect our results, particularly because we use leverage as part of our investment strategy;
- currency fluctuations could adversely affect the results of our investments in foreign companies, particularly to the extent that we receive payments denominated in foreign currency rather than U.S. dollars;
- our future operating results;
- our contractual arrangements and relationships with third parties;
- the ability of our portfolio companies to achieve their objectives;
- competition with other entities and our affiliates for investment opportunities;
- risks related to the uncertainty of the value of our portfolio investments, particularly those having no liquid trading market;;
- the use of borrowed money to finance a portion of our investments as well as any estimates regarding potential use of leverage;
- the adequacy of our financing sources and working capital;
- the loss of key personnel;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the ability of Blue Owl Credit Advisors LLC ("the Adviser" or "our Adviser") to locate suitable investments for us and to monitor and administer our investments;
- the ability of the Adviser to attract and retain highly talented professionals;
- our ability to qualify for and maintain our tax treatment as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), and as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act");
- the impact that environmental, social and governance matters could have on our brand and reputation and our portfolio companies;
- the effect of legal, tax and regulatory changes;
- the impact of information technology system failures, data security breaches, data privacy compliance, network disruptions, and cybersecurity attacks, and the increasing use of artificial intelligence and machine learning technology:
- the impact of geo-political conditions, including revolution, insurgency, terrorism or war, including those arising out of the ongoing war between Russia and Ukraine and the escalated conflict in the Middle-East, including the Israel-Hamas conflict, and general uncertainty surrounding the financial and political stability of the United States, the United Kingdom, the European Union and China, on financial market volatility, global economic markets, and various markets for commodities globally such as oil and natural gas; and
- other risks, uncertainties and other factors previously identified in the reports and other documents we have filed with the Securities and Exchange Commission ("SEC").

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this report should not be regarded as a representation by us that our plans and objectives will be achieved. These forward-looking statements apply only as of the date of this report. Moreover, we assume no duty and do not undertake to update the forward-looking statements. Because we are an investment company, the forward-looking statements and projections contained in this report are excluded from the safe harbor protection provided by Section 21E of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act").

Note 1. Organization

Blue Owl Capital Corporation (the "Company") is a Maryland corporation formed on October 15, 2015. The Company was formed primarily to originate and make loans to, and make debt and equity investments in, U.S. middle market companies. The Company invests in senior secured or unsecured loans, subordinated loans or mezzanine loans and, to a lesser extent, equity and equity-related securities including warrants, preferred stock and similar forms of senior equity, which may or may not be convertible into a portfolio company's common equity. The Company's investment objective is to generate current income and to a lesser extent, capital appreciation by targeting investment opportunities with favorable risk-adjusted returns.

The Company has elected to be regulated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). In addition, for tax purposes, the Company is treated as a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). Because the Company has elected to be regulated as a BDC and qualifies as a RIC under the Code, the Company's portfolio is subject to diversification and other requirements.

On April 27, 2016, the Company formed a wholly-owned subsidiary, OR Lending LLC, a Delaware limited liability company, which holds a California finance lenders license. OR Lending LLC makes loans to borrowers headquartered in California. From time to time the Company may form wholly-owned subsidiaries to facilitate the normal course of business.

Blue Owl Credit Advisors LLC (the "Adviser") serves as the Company's investment adviser. The Adviser is registered with the Securities and Exchange Commission ("SEC") as an investment adviser under the Investment Advisers Act of 1940, as amended (the "Advisers Act"), an indirect affiliate of Blue Owl Capital Inc. ("Blue Owl") (NYSE: OWL) and part of Blue Owl's Credit platform, which focuses on direct lending. Blue Owl consists of three investment platforms: (1) Credit, which focuses on direct lending, (2) GP Strategic Capital, which focuses on providing capital to institutional alternative asset managers, and (3) Real Estate, which focuses on triple net lease real estate strategies. Subject to the overall supervision of the Company's board of directors (the "Board"), the Adviser manages the day-to-day operations of, and provides investment advisory and management services to, the Company.

On July 22, 2019, the Company closed its initial public offering ("IPO") and the Company's common stock began trading on the New York Stock Exchange ("NYSE") on July 18, 2019 ("Listing Date"). Since July 6, 2023, the Company's common stock has traded on the NYSE under the symbol "OBDC."

Note 2. Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company is an investment company and, therefore, applies the specialized accounting and reporting guidance in Accounting Standards Codification ("ASC") Topic 946, Financial Services – Investment Companies. In the opinion of management, all adjustments considered necessary for the fair presentation of the consolidated financial statements have been included. The Company was initially capitalized on March 1, 2016 and commenced operations on March 3, 2016. The Company's fiscal year ends on December 31.

Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Actual amounts could differ from those estimates and such differences could be material.

Cash

Cash consists of deposits held at a custodian bank and restricted cash pledged as collateral. Cash is carried at cost, which approximates fair value. The Company deposits its cash with highly-rated banking corporations and, at times, may exceed the insured limits under applicable law.

Investments at Fair Value

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds received and the amortized cost basis of the investment using the specific identification method without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. The net change in unrealized gains or losses primarily reflects the change in investment values, including the reversal of previously recorded unrealized gains or losses with respect to investments realized during the period. Rule 2a-5 under the 1940 Act establishes requirements for determining fair value in good faith for purposes of the 1940 Act. Pursuant to Rule 2a-5, the Board designated the Adviser as the Company's valuation designee to perform fair value determinations relating to the value of assets held by the Company for which market quotations are not readily available.

Investments for which market quotations are readily available are typically valued at the average bid price of those market quotations. To validate market quotations, the Company utilizes a number of factors to determine if the quotations are representative of fair value, including the source and number of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available, as is the case for substantially all of the Company's investments, are valued at fair value as determined in good faith by the Adviser, as the valuation designee, based on, among other things, the input of the independent third-party valuation firm(s) engaged at the direction of the Adviser.

As part of the valuation process, the Adviser, as the valuation designee, takes into account relevant factors in determining the fair value of the Company's investments, including: the estimated enterprise value of a portfolio company (*i.e.*, the total fair value of the portfolio company's debt and equity), the nature and realizable value of any collateral, the portfolio company's ability to make payments based on its earnings and cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, and overall changes in the interest rate environment and the credit markets that may affect the price at which similar investments may be made in the future. When an external event such as a purchase or sale transaction, public offering or subsequent equity sale occurs, the Adviser, as the valuation designee, considers whether the pricing indicated by the external event corroborates its valuation.

The Adviser, as the valuation designee, undertakes a multi-step valuation process, which includes, among other procedures, the following:

- With respect to investments for which market quotations are readily available, those investments will typically be valued at the average bid price of those market quotations;
- With respect to investments for which market quotations are not readily available, the valuation process begins with the independent valuation firm(s) providing a preliminary valuation of each investment to the Adviser's valuation committee;
- Preliminary valuation conclusions are documented and discussed with the Adviser's valuation committee;
- The Adviser, as the valuation designee, reviews the recommended valuations and determines the fair value of each investment;
- Each quarter, the Adviser, as the valuation designee, will provide the Audit Committee a summary or description of material fair value matters that occurred in the prior quarter and on an annual basis, the Adviser, as the valuation designee, will provide the Audit Committee with a written assessment of the adequacy and effectiveness of its fair value process; and
- The Audit Committee oversees the valuation designee and will report to the Board on any valuation matters requiring the Board's attention.

The Company conducts this valuation process on a quarterly basis.

The Company applies Financial Accounting Standards Board ("FASB") Accounting Standards Codification 820, *Fair Value Measurements* ("ASC 820"), as amended, which establishes a framework for measuring fair value in accordance with U.S. GAAP and required disclosures of fair value measurements. ASC 820 determines fair value to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. Market participants are defined as buyers and sellers in the principal or most advantageous market (which may be a hypothetical market) that are independent, knowledgeable, and willing and able to transact. In accordance with ASC 820, the Company considers its principal market to be the market that has the greatest volume and level of activity. ASC 820 specifies a fair value hierarchy that prioritizes and ranks the level of observability of inputs used in determination of fair value. In accordance with ASC 820, these levels are summarized below:

- Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.
- Level 2 – Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Transfers between levels, if any, are recognized at the beginning of the period in which the transfer occurs. In addition to using the above inputs in investment valuations, the Company applies the valuation policy approved by its Board that is consistent with ASC 820. Consistent with the valuation policy, the Adviser, as the valuation designee, evaluates the source of the inputs, including any markets in which its investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. When an investment is valued based on prices provided by reputable dealers or pricing services (such as broker quotes), the Adviser, as the valuation designee, subjects those prices to various criteria in making the determination as to whether a particular investment would qualify for treatment as a Level 2 or Level 3 investment. For example, the Adviser, as the valuation designee, or the independent valuation firm(s), reviews pricing support provided by dealers or pricing services in order to determine if observable market information is being used, versus unobservable inputs.

The Company applies the practical expedient provided by the ASC Topic 820 relating to investments in certain entities that calculate net asset value per share (or its equivalent). ASC Topic 820 permits an entity holding investments in certain entities that either are investment companies, or have attributes similar to an investment company, and calculate NAV per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that NAV per share, or its equivalent, without adjustment. Investments which are valued using NAV per share as a practical expedient are not categorized within the fair value hierarchy as per ASC Topic 820.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may fluctuate from period to period. Additionally, the fair value of such investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that may ultimately be realized. Further, such investments are generally less liquid than publicly traded securities and may be subject to contractual and other restrictions on resale. If the Company were required to liquidate a portfolio investment in a forced or liquidation sale, it could realize amounts that are different from the amounts presented and such differences could be material.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected herein.

Financial and Derivative Instruments

Pursuant to ASC 815 *Derivatives and Hedgin*g, all derivative instruments entered into by the Company are designated as hedging instruments. For all derivative instruments designated as a hedge, the entire change in the fair value of the hedging instrument shall be recorded in the same line item of the Consolidated Statements of Operations as the hedged item. The Company's derivative instruments are used to hedge the Company's fixed rate debt, and therefore both the periodic payment and the change in fair value for the effective hedge, if applicable, will be recognized as components of interest expense in the Consolidated Statements of Operations. Fair value is estimated by discounting remaining payments using applicable current market rates, or market quotes, if available. Rule 18f-4 requires BDCs that use derivatives to, among other things, comply with a value-at-risk leverage limit, adopt a derivatives risk management program, and implement certain testing and board reporting procedures. Rule 18f-4 exempts BDCs that qualify as "limited derivatives users" from the aforementioned requirements, provided that these BDCs adopt written policies and procedures that are reasonably designed to manage the BDC's derivatives risks and comply with certain recordkeeping requirements. Rule 18f-4 provides that a BDC may enter into an unfunded commitment agreement that is not a derivatives transaction, such as an agreement to provide financing to a portfolio company, if the BDC has, among other things, a reasonable belief, at the time it enters into such an agreement, that it will have sufficient cash and cash equivalents to meet its obligations with respect to all of its unfunded commitment agreements, in each case as it becomes due. Pursuant to Rule 18f-4, when we trade reverse repurchase agreements or similar financing transactions, including certain tender option bonds, we need to aggregate the amount of any other senior securities representing indebtedness (e.g., bank borrowings, if applicable) when calculating our asset coverage ratio. The Company currently qualifies as a "limited derivatives user" and expects to continue to do so. The Company has adopted a derivatives policy and complies with the recordkeeping requirements of Rule 18f-4.

Foreign Currency

Foreign currency amounts are translated into U.S. dollars on the following basis:

- cash, fair value of investments, outstanding debt, other assets and liabilities: at the spot exchange rate on the last business day of the period; and
- purchases and sales of investments, borrowings and repayments of such borrowings, income and expenses: at the rates of exchange prevailing on the respective dates of such transactions.

The Company includes net changes in fair values on investments held resulting from foreign exchange rate fluctuations with the change in unrealized gains (losses) on translation of assets and liabilities in foreign currencies on the Consolidated Statements of Operations. The Company's current approach to hedging the foreign currency exposure in its non-U.S. dollar denominated investments is primarily to borrow the par amount in local currency under the Company's Revolving Credit Facility to fund these investments. Fluctuations arising from the translation of foreign currency borrowings are included with the net change in unrealized gains (losses) on translation of assets and liabilities in foreign currencies on the Consolidated Statements of Operations.

Investments denominated in foreign currencies and foreign currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

Interest and Dividend Income Recognition

Interest income is recorded on the accrual basis and includes amortization or accretion of premiums or discounts. Certain investments may have contractual payment-in-kind ("PIK") interest or dividends. PIK interest and dividends represent accrued interest or dividends that are added to the principal amount or liquidation amount of the investment on the respective interest or dividend payment dates rather than being paid in cash and generally becomes due at maturity or at the occurrence of a liquidation event. For the three months ended March 31, 2024, PIK interest and PIK dividend income earned was $51.5 million representing 12.9% of investment income. For the three months ended March 31, 2023, PIK interest and PIK dividend income earned was $52.9 million, representing 14.0% of investment income. Discounts to par value on securities purchased are amortized into interest income over the contractual life of the respective security using the effective yield method. Premiums to par value on securities purchased are amortized to first call date. The amortized cost of investments represents the original cost adjusted for the amortization or accretion of premiums or discounts, if any. Upon prepayment of a loan or debt security, any prepayment premiums, unamortized upfront loan origination fees and unamortized discounts are recorded as interest income in the current period.

Loans are generally placed on non-accrual status when there is reasonable doubt that principal or interest will be collected in full. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectability. If at any point the Company believes PIK interest or dividends are not expected to be realized, the investment generating PIK interest or dividends will be placed on non-accrual status. When a PIK investment is placed on non-accrual status, the accrued, uncapitalized interest or dividends are generally reversed through interest income. Non-accrual loans are restored to accrual status when past due principal and interest is paid current and, in management's judgment, are likely to remain current. Management may make exceptions to this treatment and determine to not place a loan on non-accrual status if the loan has sufficient collateral value and is in the process of collection.

Dividend income on preferred equity securities is recorded on the accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly-traded portfolio companies.

Other Income

From time to time, the Company may receive fees for services provided to portfolio companies. These fees are generally only available to the Company as a result of closing investments, are generally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Adviser provides vary by investment, but can include closing, work, diligence or other similar fees and fees for providing managerial assistance to our portfolio companies.

Offering Expenses

Costs associated with the private placement offering of common shares of the Company were capitalized as deferred offering expenses and included in prepaid expenses and other assets in the Consolidated Statements of Assets and Liabilities and were amortized over a twelve-month period from incurrence. The Company records expenses related to public equity offerings as a reduction of capital upon completion of an offering of registered securities. The costs associated with renewals of the Company's shelf registration statement will be expensed as incurred.

Debt Issuance Costs

The Company records origination and other expenses related to its debt obligations as deferred financing costs. These expenses are deferred and amortized utilizing the effective yield method, over the life of the related debt instrument. Debt issuance costs are presented on the Consolidated Statements of Assets and Liabilities as a direct deduction from the debt liability. In circumstances in which there is not an associated debt liability amount recorded in the consolidated financial statements when the debt issuance costs are incurred, such debt issuance costs will be reported on the Consolidated Statements of Assets and Liabilities as an asset until the debt liability is recorded.

Reimbursement of Transaction-Related Expenses

The Company may receive reimbursement for certain transaction-related expenses in pursuing investments. Transaction-related expenses, which are generally expected to be reimbursed by the Company's portfolio companies, are typically deferred until the transaction is consummated and are recorded in prepaid expenses and other assets on the date incurred. The costs of successfully completed investments not otherwise reimbursed are borne by the Company and are included as a component of the investment's cost basis.

Cash advances received in respect of transaction-related expenses are recorded as cash with an offset to accrued expenses and other liabilities. Accrued expenses and other liabilities are relieved as reimbursable expenses are incurred.

Income Taxes

The Company has elected to be treated as a BDC under the 1940 Act. The Company has elected to be treated as a RIC under the Code beginning with its taxable year ending December 31, 2016 and intends to continue to qualify as a RIC. So long as the Company maintains its tax treatment as a RIC, it generally will not pay U.S. federal income taxes at corporate rates on any ordinary income or capital gains that it distributes at least annually to its shareholders as dividends. Instead, any tax liability related to income earned and distributed by the Company represents obligations of the Company's investors and will not be reflected in the consolidated financial statements of the Company.

To qualify as a RIC, the Company must, among other things, meet certain source-of-income and asset diversification requirements. In addition, to qualify for RIC tax treatment, the Company must distribute to its shareholders, for each taxable year, at least 90% of its "investment company taxable income" for that year, which is generally its ordinary income plus the excess of its realized net short-term capital gains over its realized net long-term capital losses. In order for the Company not to be subject to U.S. federal excise taxes, it must distribute annually an amount at least equal to the sum of (i) 98% of its net ordinary income (taking into account certain deferrals and elections) for the calendar year, (ii) 98.2% of its capital gains in excess of capital losses for the one-year period ending on October 31 of the calendar year and (iii) any net ordinary income and capital gains in excess of capital losses for preceding years that were not distributed during such years. The Company, at its discretion, may carry forward taxable income in excess of calendar year dividends and pay a 4% nondeductible U.S. federal excise tax on this income.

Certain of the Company's consolidated subsidiaries are subject to U.S. federal and state corporate-level income taxes.

The Company evaluates tax positions taken or expected to be taken in the course of preparing its consolidated financial statements to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax positions not deemed to meet the "more-likely-than-not" threshold are reserved and recorded as a tax benefit or expense in the current year. All penalties and interest associated with income taxes are included in income tax expense. Conclusions regarding tax positions are subject to review and may be adjusted at a later date based on factors including, but not limited to, on-going analyses of tax laws, regulations and interpretations thereof. There were no material uncertain tax positions through December 31, 2023. As applicable, the Company's prior three tax years remain subject to examination by U.S. federal, state and local tax authorities.

Distributions to Common Shareholders

Distributions to common shareholders are recorded on the record date. The amount to be distributed is determined by the Board and is generally based upon the earnings estimated by the Adviser. In addition, the Board may consider the level of undistributed taxable income carried forward from the prior year for distribution in the current year. Net realized long-term capital gains, if any, would generally be distributed at least annually, although the Company may decide to retain such capital gains for investment.

The Company has adopted a dividend reinvestment plan that provides for reinvestment of any cash distributions on behalf of shareholders, unless a shareholder elects to receive cash. As a result, if the Board authorizes and declares a cash distribution, then the shareholders who have not "opted out" of the dividend reinvestment plan will have their cash distribution automatically reinvested in additional shares of the Company's common stock, rather than receiving the cash distribution. The Company expects to use newly issued shares or shares purchased in the open-market to implement the dividend reinvestment plan.

Consolidation

As provided under Regulation S-X and ASC Topic 946 – Financial Services – Investment Companies, the Company will generally not consolidate its investment in a company other than a wholly-owned investment company or controlled operating company whose business consists of providing services to the Company. Accordingly, the Company consolidated the accounts of the Company's wholly-owned subsidiaries that meet the aforementioned criteria in its consolidated financial statements. All significant intercompany balances and transactions have been eliminated in consolidation.

The Company does not consolidate its equity interest in Blue Owl Capital Corporation Senior Loan Fund LLC ("OBDC SLF"), Wingspire Capital Holdings LLC ("Wingspire"), Fifth Season Investment LLC ("Fifth Season"), or AAM Series 1.1 Rail and Domestic Intermodal Feeder, LLC and AAM Series 2.1 Aviation Feeder, LLC (collectively, "Amergin AssetCo"). For further description of the Company's investment in OBDC SLF, see Note 4 "Investments". For further description of the Company's investments in Wingspire, Amergin AssetCo and Fifth Season, see Note 3 "Agreements and Related Party Transactions – *Controlled/Affiliated Portfolio Companies*".

New Accounting Pronouncements

In March 2020, the FASB issued ASU No. 2020-04, "Reference Rate Reform (Topic 848)," which provides optional expedients and exceptions for applying U.S. GAAP to contracts, hedging relationships, and other transactions affected by reference rate reform if certain criteria are met. The amendments apply only to contracts, hedging relationships, and other transactions that reference London Interbank Offered Rate ("LIBOR") or another reference rate expected to be discontinued because of reference rate reform. In January 2021, the FASB issued ASU No. 2021-01, "Reference Rate Reform (Topic 848)," which expanded the scope of Topic 848 to include derivative instruments impacted by discounting transition. In December 2022, the FASB issued ASU No. 2022-06, "Reference Rate

Reform (Topic 848)," which extended the transition period provided under ASU No. 2020-04 and 2021-01 for all entities from December 31, 2022 to December 31, 2024.

In June 2022, the FASB issued ASU No. 2022-03, "Fair Value Measurement (Topic 820)," which clarifies the guidance in Topic 820 when measuring the fair value of an equity security subject to contractual restrictions that prohibit the sale of an equity security and introduces new disclosure requirements for equity securities subject to contractual sale restrictions that are measured at fair value in accordance with Topic 820. The amendments affect all entities that have investments in equity securities measured at fair value that are subject to a contractual sale restriction. ASU 2022-03 is effective for public business entities for fiscal years beginning after December 15, 2023, and interim periods within those fiscal years. For all other entities the amendments are effective for fiscal years beginning after December 15, 2024, and interim periods within those fiscal years. Early adoption is permitted for both interim and annual financial statements that have not yet been issued or made available for issuance. An entity that qualifies as an investment company under Topic 946 should apply the amendments in ASU No. 2022-03 to an investment in an equity security subject to a contractual sale restriction that is executed or modified on or after the date of adoption. Management has adopted the aforementioned accounting pronouncement and concluded that it does not have a material effect on the accompanying consolidated financial statements.

In December 2023, the FASB issued ASU No. 2023-09, "Income Taxes (Topic 740)," which updates income tax disclosure requirements related to rate reconciliation, income taxes paid and other disclosures. ASU 2023-09 is effective for public business entities for fiscal years beginning after December 15, 2024. Early adoption is permitted for annual financial statements that have not yet been issued or made available for issuance. The Company is currently evaluating the impact of adopting ASU No. 2023-09 on the consolidated financial statements.

Other than the aforementioned guidance, the Company's management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the accompanying consolidated financial statements.

Note 3. Agreements and Related Party Transactions

Administration Agreement

The Company has entered into an amended and restated Administration Agreement (the "Administration Agreement") with the Adviser. Under the terms of the Administration Agreement, the Adviser performs, or oversees, the performance of, required administrative services, which includes providing office space, equipment and office services, maintaining financial records, preparing reports to shareholders and reports filed with the SEC, and managing the payment of expenses and the performance of administrative and professional services rendered by others.

The Administration Agreement also provides that the Company reimburses the Adviser for certain offering costs.

The Company reimburses the Adviser for services performed for it pursuant to the terms of the Administration Agreement. In addition, pursuant to the terms of the Administration Agreement, the Adviser may delegate its obligations under the Administration Agreement to an affiliate or to a third party and the Company will reimburse the Adviser for any services performed for it by such affiliate or third party.

Unless earlier terminated as described below, the Administration Agreement will remain in effect fortwo years from the date it first became effective, and will remain in effect from year to year thereafter if approved annually by (1) the vote of the Board, or by the vote of a majority of its outstanding voting securities, and (2) the vote of a majority of the Company's directors who are not "interested persons" of the Company, of the Adviser or of any of their respective affiliates, as defined in the 1940 Act. On May 6, 2024, the Board approved the continuation of the Administration Agreement. The Administration Agreement may be terminated at any time, without the payment of any penalty, on 60 days' written notice, by the vote of a majority of the outstanding voting securities of the Company, or by the vote of the Board or by the Adviser.

No person who is an officer, director, or employee of the Adviser or its affiliates and who serves as a director of the Company receives any compensation from the Company for his or her services as a director. However, the Company reimburses the Adviser (or its affiliates) for an allocable portion of the compensation paid by the Adviser or its affiliates to the Company's Chief Compliance Officer, Chief Financial Officer and their respective staffs (based on the percentage of time those individuals devote, on an estimated basis, to the business and affairs of the Company). Directors who are not affiliated with the Adviser receive compensation for their services and reimbursement of expenses incurred to attend meetings.

For the three months ended March 31, 2024 and 2023, the Company incurred expenses of approximately $1.7 million and $1.9 million, respectively, for costs and expenses reimbursable to the Adviser under the terms of the Administration Agreement.

Investment Advisory Agreement

The Investment Advisory Agreement became effective on May 18, 2021. Under the terms of the Investment Advisory Agreement, the Adviser is responsible for managing the Company's business and activities, including sourcing investment opportunities, conducting research, performing diligence on potential investments, structuring its investments, and monitoring its portfolio companies on an ongoing basis through a team of investment professionals.

The Adviser's services under the Investment Advisory Agreement are not exclusive, and it is free to furnish similar services to other entities so long as its services to the Company are not impaired.

Unless earlier terminated as described below, the Investment Advisory Agreement will remain in effect for two years from the date it first became effective, and will remain in effect from year-to-year thereafter if approved annually by a majority of the Board or by the holders of a majority of our outstanding voting securities and, in each case, by a majority of independent directors. On May 6, 2024, the Board approved the continuation of the Investment Advisory Agreement.

The Investment Advisory Agreement will automatically terminate within the meaning of the 1940 Act and related SEC guidance and interpretations in the event of its assignment. In accordance with the 1940 Act, without payment of any penalty, the Company may terminate the Investment Advisory Agreement with the Adviser upon 60 days' written notice. The decision to terminate the agreement may be made by a majority of the Board or the shareholders holding a majority (as defined under the 1940 Act) of the outstanding shares of the Company's common stock or the Adviser. In addition, without payment of any penalty, the Adviser may generally terminate the Investment Advisory Agreement upon 60 days' written notice and, in certain circumstances, the Adviser may only be able to terminate the Investment Advisory Agreement upon 120 days' written notice.

From time to time, the Adviser may pay amounts owed by the Company to third-party providers of goods or services, including the Board, and the Company will subsequently reimburse the Adviser for such amounts paid on its behalf. Amounts payable to the Adviser are settled in the normal course of business without formal payment terms.

Under the terms of the Investment Advisory Agreement, the Company will pay the Adviser a base management fee and may also pay to it certain incentive fees. The cost of both the management fee and the incentive fee will ultimately be borne by the Company's shareholders.

The management fee is currently payable quarterly in arrears. The management fee is payable at an annual rate of (x) 1.50% of the Company's average gross assets (excluding cash and cash equivalents, but including assets purchased with borrowed amounts) that is above an asset coverage ratio of 200% calculated in accordance with Sections 18 and 61 of the 1940 Act and (y) 1.00% of the Company's average gross assets (excluding cash and cash equivalents, but including assets purchased with borrowed amounts) that is below an asset coverage ratio of 200% calculated in accordance with Section 18 and 61 of the 1940 Act, in each case, at the end of the two most recently completed calendar quarters. The management fee for any partial month or quarter, as the case may be, will be appropriately prorated and adjusted for any share issuances or repurchases during the relevant calendar months or quarters, as the case may be.

For the three months ended March 31, 2024 and 2023, management fees were $47.2 million and $48.1 million, respectively.

The incentive fee consists of two components that are independent of each other, with the result that one component may be payable even if the other is not. A portion of the incentive fee is based on the Company's pre-incentive fee net investment income and a portion is based on the Company's capital gains. The portion of the incentive fee based on pre-incentive fee net investment income is determined and paid quarterly in arrears commencing with the first calendar quarter following the Listing Date, and equals 100% of the pre-incentive fee net investment income in excess of a 1.5% quarterly "hurdle rate," until the Adviser has received 17.5% of the total pre-incentive fee net investment income for that calendar quarter and, for pre-incentive fee net investment income in excess of 1.82% quarterly, 17.5% of all remaining pre-incentive fee net investment income for that calendar quarter.

The second component of the incentive fee, the capital gains incentive fee, payable at the end of each calendar year in arrears, equals 17.5% of cumulative realized capital gains from the Listing Date to the end of each calendar year, less cumulative realized capital losses and unrealized capital depreciation from the Listing Date to the end of each calendar year, less the aggregate amount of any previously paid capital gains incentive fee for prior periods. In no event will the capital gains incentive fee payable pursuant to the Investment Advisory Agreement be in excess of the amount permitted by the Advisers Act of 1940, as amended, including Section 205 thereof.

While the Investment Advisory Agreement neither includes nor contemplates the inclusion of unrealized gains in the calculation of the capital gains incentive fee, as required by U.S. GAAP, the Company accrues capital gains incentive fees on unrealized gains. This accrual reflects the incentive fees that would be payable to the Adviser if the Company's entire investment portfolio was liquidated at its fair value as of the balance sheet date even though the Adviser is not entitled to an incentive fee with respect to unrealized gains unless and until such gains are actually realized.

For the three months ended March 31, 2024, and 2023, the Company incurred $38.8 million and $37.7 million of performance based incentive fees based on net investment income, respectively.

For the three months ended March 31, 2024 and 2023, the Company did not accrue capital gains based incentive fees.

Affiliated Transactions

The Company may be prohibited under the 1940 Act from participating in certain transactions with its affiliates without prior approval of the directors who are not interested persons, and in some cases, the prior approval of the SEC. The Company, the Adviser and certain of their affiliates have been granted an order for exemptive relief (as amended, the "Order") by the SEC for the Company to co-invest with other funds managed by the Adviser or certain affiliates in a manner consistent with the Company's investment objective, positions, policies, strategies and restrictions as well as regulatory requirements and other pertinent factors. Pursuant to such Order, the Company generally is permitted to co-invest with certain of its affiliates if a "required majority" (as defined in Section 57(o) of the 1940 Act) of the Board make certain conclusions in connection with a co-investment transaction, including that (1) the terms of the transaction, including the consideration to be paid, are reasonable and fair to the Company and its shareholders and do not involve overreaching by the Company or its shareholders on the part of any person concerned, (2) the transaction is consistent with the interests of the Company's shareholders and is consistent with its investment objective and strategies, (3) the investment by its affiliates would not disadvantage the Company, and the Company's participation would not be on a basis different from or less advantageous than that on which its affiliates are investing and (4) the proposed investment by the Company would not benefit the Adviser or its affiliates or any affiliated person of any of them (other than the parties to the transaction), except to the extent permitted by the Order and applicable law, including the limitations set forth in Section 57(k) of the 1940 Act. In addition, the Order permits the Company to participate in follow-on investments in its existing portfolio companies with certain affiliates that are private funds, if such private funds did not have an investment in such existing portfolio company.

The Adviser is affiliated with Blue Owl Technology Credit Advisors LLC ("OTCA"), Blue Owl Technology Credit Advisors II LLC ("OTCA II"), Blue Owl Credit Private Fund Advisors LLC ("OPFA") and Blue Owl Diversified Credit Advisors LLC ("ODCA" together with OTCA, OTCA II, OPFA and the Adviser, the "Blue Owl Credit Advisers"), which are also registered investment advisers. The Blue Owl Credit Advisers are affiliates of Blue Owl and comprise part of Blue Owl's Credit platform, which focuses on direct lending. The Blue Owl Credit Advisers' allocation policy seeks to ensure equitable allocation of investment opportunities over time between the Company and other funds managed by the Adviser or its affiliates. As a result of the Order, there could be significant overlap in the Company's investment portfolio and the investment portfolio of the BDCs, private funds and separately managed accounts managed by the Blue Owl Credit Advisers (collectively, the "Blue Owl Credit Clients") and/or other funds managed by the Adviser or its affiliates that could avail themselves of the Order and that have an investment objective similar to the Company's.

License Agreement

On July 6, 2023, the Company entered into a license agreement (the "License Agreement") with an affiliate of Blue Owl, pursuant to which we were granted a non-exclusive license to use the name "Blue Owl." Under the License Agreement, the Company has a right to use the Blue Owl name for so long as the Adviser or one of its affiliates remains the Company's investment adviser. Other than with respect to this limited license, the Company will have no legal right to the "Blue Owl" name or logo.

Controlled/Affiliated Portfolio Companies

Under the 1940 Act, the Company is required to separately identify non-controlled investments where it owns 5% or more of a portfolio company's outstanding voting securities and/or has the power to exercise control over the management or policies of such portfolio company as investments in "affiliated" companies. In addition, under the 1940 Act, the Company is required to separately identify investments where it owns more than 25% of a portfolio company's outstanding voting securities and/or has the power to exercise control over the management or policies of such portfolio company as investments in "controlled" companies. Under the 1940 Act, "non-affiliated investments" are defined as investments that are neither controlled investments nor affiliated investments. Detailed information with respect to the Company's non-controlled, non-affiliated; non-controlled, affiliated; and controlled affiliated investments is contained in the accompanying consolidated financial statements, including the consolidated schedule of investments.

OBDC SLF's principal purpose is to make investments, primarily in senior secured loans that are made to middle-market companies or in broadly syndicated loans. The Company has determined that OBDC SLF is an investment company under ASC 946; however, in accordance with such guidance, the Company will generally not consolidate its investment in a company other than a wholly owned investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Other than for purposes of the 1940 Act, the Company does not believe that it has control over this portfolio company. Description of Facilities

Revolving Credit Facility

On August 26, 2022, the Company entered into an Amended and Restated Senior Secured Revolving Credit Agreement (the "Revolving Credit Facility"), which amends and restates in its entirety that certain Senior Secured Revolving Credit Agreement, dated as of February 1, 2017 (as amended, restated, supplemented or otherwise modified prior to August 26, 2022). The parties to the Revolving Credit Facility include the Company, as Borrower, the lenders from time to time parties thereto and Truist Bank, as Administrative Agent. On November 17, 2023 (the "Facility First Amendment Date"), the parties to the Revolving Credit Facility entered into an amendment to the Revolving Credit Facility to, among other things, extend the availability period and maturity date for certain lenders. The following describes the terms of the Revolving Credit Facility amended through December 4, 2023.

The Revolving Credit Facility is guaranteed by certain domestic subsidiaries of the Company in existence as of the Revolving Credit Facility First Amendment Date, and will be guaranteed by certain domestic subsidiaries of the Company that are formed or acquired by the Company thereafter (collectively, the "Guarantors"). Proceeds of the Revolving Credit Facility may be used for general corporate purposes, including the funding of portfolio investments.

As of December 4, 2023, the maximum principal amount of the Revolving Credit Facility is $1.90 billion (increased from $1.85 billion to $1.90 billion on December 4, 2023), subject to availability under the borrowing base, which is based on the Company's portfolio investments and other outstanding indebtedness. The amount available for borrowing under the Revolving Credit Facility is reduced by any standby letters of credit issued through the Revolving Credit Facility. Maximum capacity under the Revolving Credit Facility may be increased to $2.78 billion through the Company's exercise of an uncommitted accordion feature through which existing and new lenders may, at their option, agree to provide additional financing. The Revolving Credit Facility includes a $200.0 million limit for swingline loans and is secured by a perfected first-priority interest in substantially all of the portfolio investments held by the Company and each Guarantor, subject to certain exceptions.

As of the Revolving Credit Facility First Amendment Date, the availability period under the Revolving Credit Facility will terminate on (a) September 3, 2024 with respect to $15.0 million of commitments, (b) August 26, 2026 with respect to $50.0 million of commitments and (c) November 17, 2027 with respect to the remaining commitments (each date, a "Revolving Credit Facility Commitment Termination Date"). The Revolving Credit Facility will mature on (a) September 3, 2025 with respect to $15.0 million of commitments, (b) August 26, 2027 with respect to $50.0 million of commitments and (c) November 17, 2028 with respect to the remaining commitments (each date, a "Revolving Credit Facility Maturity Date"). During the period from the earliest Revolving Credit Facility Commitment Termination Date to the latest Revolving Credit Facility Maturity Date, the Company will be obligated to make mandatory prepayments under the Revolving Credit Facility out of the proceeds of certain asset sales and other recovery events and equity and debt issuances.

The Company may borrow amounts in U.S. dollars or certain other permitted currencies. Amounts drawn under the Revolving Credit Facility with respect to the commitments in U.S. dollars maturing on November 17, 2028 will bear interest at either (i) term SOFR plus any applicable credit adjustment spread plus margin of either 1.875% per annum or, if the gross borrowing base is greater than or equal to the product of 1.60 and the combined debt amount, 1.75% per annum or (ii) the alternative base rate plus margin of either 0.875% per annum or, if the gross borrowing base is greater than or equal to the product of 1.60 and the combined debt amount, 0.75% per annum. Amounts drawn under the Revolving Credit Facility with respect to the commitments in U.S. dollars maturing on September 3, 2025 and August 26, 2027 will bear interest at either (i) term SOFR plus any applicable credit adjustment spread plus margin of 2.00% per annum or (ii) the alternative base rate plus margin of 1.00% per annum. With respect to loans denominated in U.S. dollars, the Company may elect either term SOFR or the alternative base rate at the time of drawdown, and such loans may be converted from one rate to another at any time at the Company's option, subject to certain conditions. Amounts drawn under the Revolving Credit Facility with respect to the commitments in other permitted currencies maturing on November 17, 2028 will bear interest at the relevant rate specified therein (including any applicable credit adjustment spread) plus margin of either 1.875% per annum or, if the gross borrowing base is greater than or equal to the product of 1.60 and the combined debt amount, 1.75% per annum. Amounts drawn under the Revolving Credit Facility with respect to the commitments in other permitted currencies maturing on September 3, 2025 and August 26, 2027 will bear interest at the relevant rate specified therein (including any applicable credit adjustment spread) plus margin of 2.00% per annum. The parties to the SPV Asset Facility II have entered into various amendments, including to admit new lenders, increase or decrease the maximum principal amount available under the facility, extend the availability period and maturity date, change the interest rate and make various other changes. The following describes the terms of SPV Asset Facility II amended through January 17, 2024 (the "SPV Asset Facility II Ninth Amendment Date").

From time to time, the Company sells and contributes certain investments to ORCC Financing II pursuant to a sale and contribution agreement by and between the Company and ORCC Financing II. The Company retains a residual interest in assets contributed to or acquired by ORCC Financing II through the Company's ownership of ORCC Financing II. The maximum principal amount of the SPV Asset Facility II as of the SPV Asset Facility II Ninth Amendment Date is $300.0 million (which consists of $300.0 million of revolving commitments). The availability of this amount is subject to an overcollateralization ratio test, which is based on the value of ORCC Financing II's assets from time to time, and satisfaction of certain conditions, including an interest coverage ratio test, certain concentration limits and collateral quality tests.

The SPV Asset Facility II provides for the ability to draw and redraw revolving loans under the SPV Asset Facility II through April 22, 2025, unless the revolving commitments are terminated sooner as provided in the SPV Asset Facility II (the "SPV Asset Facility II Commitment Termination Date"). Unless otherwise terminated, the SPV Asset Facility II will mature on April 17, 2033 (the "SPV Asset Facility II Stated Maturity"). Prior to the SPV Asset Facility II Stated Maturity, proceeds received by ORCC Financing II from principal and interest, dividends, or fees on assets must be used to pay fees, expenses and interest on outstanding borrowings, and the excess may be returned to the Company, subject to certain conditions. On the SPV Asset Facility II Stated Maturity, ORCC Financing II must pay in full all outstanding fees and expenses and all principal and interest on outstanding borrowings, and the excess may be returned to the Company.

The SPV Asset Facility II contains customary covenants, including certain financial maintenance covenants, limitations on the activities of ORCC Financing II, including limitations on incurrence of incremental indebtedness, and customary events of default. The SPV Asset Facility II is secured by a perfected first priority security interest in the assets of ORCC Financing II and on any payments received by ORCC Financing II in respect of those assets. Assets pledged to the SPV Asset Facility II Lenders will not be available to pay the debts of the Company.

The maximum principal amount of the SPV Asset Facility III was $250.0 million; the availability of this amount was subject to a borrowing base test, which was based on the value of ORCC Financing III's assets from time to time, and satisfaction of certain conditions, including interest spread and weighted average coupon tests, certain concentration limits and collateral quality tests.

The SPV Asset Facility III provided for the ability to borrow, reborrow, repay and prepay advances under the SPV Asset Facility III until June 14, 2023 unless such period was extended or accelerated under the terms of the SPV Asset Facility III (the "SPV Asset Facility III Revolving Period"). Prior to the SPV Asset Facility III Termination Date, proceeds received by ORCC Financing III from principal and interest, dividends, or fees on assets were required to be used to pay fees, expenses and interest on outstanding advances, and the excess returned to the Company, subject to certain conditions. On the SPV Asset Facility III Termination Date, ORCC Financing III repaid in full all outstanding fees and expenses and all principal and interest on outstanding advances.

Amounts drawn bore interest at term SOFR (or, in the case of certain SPV Asset Facility III Lenders that are commercial paper conduits, the lower of (a) their cost of funds and (b) term SOFR, such term SOFR not to be lower than zero) plus a spread equal to 2.20% per annum, which spread would have increased (a) on and after the end of the SPV Asset Facility III Revolving Period by 0.15% per annum if no event of default had occurred and (b) by2.00% per annum upon the occurrence of an event of default (such spread, the "Applicable Margin"). Term SOFR may have been replaced as a base rate under certain circumstances. The Company predominantly borrowed utilizing term SOFR rate loans, generally electing one-month SOFR upon borrowing. During the SPV Asset Facility III Revolving Period, ORCC Financing III paid an undrawn fee ranging from 0.25% to 0.50% per annum on the undrawn amount, if any, of the revolving commitments in the SPV Asset Facility III. During the SPV Asset Facility III Revolving Period, if the undrawn commitments were in excess of a certain portion (initially 20% and increasing in stages to 75%) of the total commitments under the SPV Asset Facility III, ORCC Financing III would have also paid a make-whole fee equal to the Applicable Margin multiplied by such excess undrawn commitment amount, reduced by the undrawn fee payable on such excess. The SPV Asset Facility III contained customary covenants, including certain financial maintenance covenants, limitations on the activities of ORCC Financing III, including limitations on incurrence of incremental indebtedness, and customary events of default. The SPV Asset Facility III was secured by a perfected first priority security interest in the assets of ORCC Financing III and on any payments received by ORCC Financing III in respect of those assets. Assets pledged to the SPV Asset Facility III Lenders were not available to pay the debts of the Company.

SPV Asset Facility IV

On August 2, 2019 (the "SPV Asset Facility IV Closing Date"), ORCC Financing IV LLC ("ORCC Financing IV"), a Delaware limited liability company and newly formed subsidiary of the Company entered into a Credit Agreement (the "SPV Asset Facility IV"), with ORCC Financing IV, as borrower, Société Générale, as initial Lender and as Administrative Agent, State Street Bank and Trust Company, as Collateral Agent, Collateral Administrator and Custodian, and Cortland Capital Market Services LLC as Document Custodian and the lenders from time to time party thereto pursuant to Assignment and Assumption Agreements (the "SPV Asset Facility IV Lenders").

The amendment also changed the applicable interest rate from LIBOR plus an applicable margin of 2.15% during the reinvestment period and LIBOR plus an applicable margin of2.40% after the reinvestment period to term SOFR plus an applicable margin of 2.30% during the reinvestment period and term SOFR plus an applicable margin of2.55% after the reinvestment period.

From time to time, the Company sold and contributed certain investments to ORCC Financing IV pursuant to a Sale and Contribution Agreement by and between the Company and ORCC Financing IV. The SPV Asset Facility IV was terminated on October 3, 2022 (the "SPV Asset Facility IV Termination Date"). No gain or loss was recognized as a result of the contribution. Proceeds from the SPV Asset Facility IV were used to finance the origination and acquisition of eligible assets by ORCC Financing IV, including the purchase of such assets from the Company. The Company retained a residual interest in assets contributed to or acquired by ORCC Financing IV through its ownership of ORCC Financing IV. The maximum principal amount of the SPV Asset Facility IV was $250.0 million; the availability of this amount was subject to an overcollateralization ratio test, which was based on the value of ORCC Financing IV's assets from time to time, and satisfaction of certain conditions, including an interest coverage ratio test, certain concentration limits and collateral quality tests.

The SPV Asset Facility IV provides for the ability to (1) draw term loans and (2) draw and redraw revolving loans under the SPV Asset Facility IV until the last day of the reinvestment period unless the revolving commitments are terminated or converted to term loans sooner as provided in the SPV Asset Facility IV (the "SPV Asset Facility IV Commitment Termination Date"). Prior to the SPV Asset Facility IV Termination Date, proceeds received by ORCC Financing IV from principal and interest, dividends, or fees on assets were required to be used to pay fees, expenses and interest on outstanding borrowings, and the excess may have been returned to the Company, subject to certain conditions. On the SPV Asset Facility IV Termination Date, ORCC Financing IV repaid in full all outstanding fees and expenses and all principal and interest on outstanding borrowings.

From the SPV Asset Facility IV Closing Date to the SPV Asset Facility IV Termination Date, there was a commitment fee ranging from 0.50% to 0.75% per annum on the undrawn amount, if any, of the revolving commitments in the SPV Asset Facility IV. The SPV Asset Facility IV contained customary covenants, including certain financial maintenance covenants, limitations on the activities of ORCC Financing IV, including limitations on incurrence of incremental indebtedness, and customary events of default. The SPV Asset Facility IV was secured by a perfected first priority security interest in the assets of ORCC Financing IV and on any payments received by ORCC Financing IV in respect of those assets. Assets pledged to the SPV Asset Facility IV Lenders were not available to pay the debts of the Company.

The Company typically determines the fair value of its performing Level 3 debt investments utilizing a yield analysis. In a yield analysis, a price is ascribed for each investment based upon an assessment of current and expected market yields for similar investments and risk profiles. Additional consideration is given to the expected life, portfolio company performance since close, and other terms and risks associated with an investment. Among other factors, a determinant of risk is the amount of leverage used by the portfolio company relative to its total enterprise value, and the rights and remedies of the Company's investment within the portfolio company's capital structure.

When the debtor is not performing or when there is insufficient value to cover the investment, the Company may utilize a net recovery approach to determine the fair value of debt investments in subject companies. A net recovery analysis typically consists of two steps. First, the total enterprise value for the subject company is estimated using standard valuation approaches, most commonly the market approach. Second, the fair value for each investment in the subject company is then estimated by allocating the subject company's total enterprise value to the outstanding securities in the capital structure based upon various factors, including seniority, preferences, and other features if deemed relevant to each security in the capital structure.

Significant unobservable quantitative inputs typically used in the fair value measurement of the Company's Level 3 debt investments primarily include current market yields, including relevant market indices, but may also include quotes from brokers, dealers, and pricing services as indicated by comparable investments. For the Company's Level 3 equity investments, a market approach, based on comparable financial performance multiples such as publicly-traded company and comparable market transaction multiples of revenues, earnings before income taxes, depreciation and amortization ("EBITDA"), or some combination thereof and comparable market transactions typically would be used.

Dividend Reinvestment

With respect to distributions, the Company has adopted an "opt out" dividend reinvestment plan for common shareholders. As a result, in the event of a declared distribution, each shareholder that has not "opted out" of the dividend reinvestment plan will have their dividends or distributions automatically reinvested in additional shares of the Company's common stock rather than receiving cash distributions. If newly issued shares are used to implement the dividend reinvestment plan, the number of shares to be issued to a shareholder will be determined by dividing the total dollar amount of the cash dividend or distribution payable to a shareholder by the market price per share of our common stock at the close of regular trading on the New York Stock Exchange on the payment date of a distribution, or if no sale is reported for such day, the average of the reported bid and ask prices. However, if the market price per share on the payment date of a cash dividend or distribution exceeds the most recently computed net asset value per share, we will issue shares at the greater of (i) the most recently computed net asset value per share and (ii) 95% of the current market price per share (or such lesser discount to the current market price per share that still exceeded the most recently computed net asset value per share). If shares are purchased in the open market to implement the dividend reinvestment plan, the number of shares to be issued to a shareholder shall be determined by dividing the dollar amount of the cash dividend payable to such shareholder by the weighted average price per share for all shares purchased by the plan administrator in the open market in connection with the dividend. Shareholders who receive distributions in the form of shares of common stock will be subject to the same U.S. federal, state and local tax consequences as if they received cash distributions.

The following tables presents the shares distributed pursuant to the dividend reinvestment plan for the following periods:

Note 10. Income Taxes

The Company has elected to be treated as a RIC under Subchapter M of the Code, and intends to operate in a manner so as to continue to qualify for the tax treatment applicable to RICs. To qualify for tax treatment as a RIC, the Company must, among other things, distribute to its shareholders in each taxable year generally at least 90% of the Company's investment company taxable income, as defined by the Code, and net tax-exempt income for that taxable year. In addition, a RIC may, in certain cases, satisfy this distribution requirement by distributing dividends relating to a taxable year after the close of such taxable year under the "spillover dividend" provisions of Subchapter M. To maintain tax treatment as a RIC, the Company, among other things, intends to make the requisite distributions to its shareholders, which generally relieves the Company from corporate-level U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, the Company can be expected to carry forward taxable income (including net capital gains, if any) in excess of current year dividend distributions from the current tax year into the next tax year and pay a nondeductible 4% U.S. federal excise tax on such taxable income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such income, the Company will accrue excise tax on estimated excess taxable income.

For the three months ended March 31, 2024 and 2023 the Company recorded U.S. federal and state corporate-level income tax expense/(benefit) of $5.2 million, and $3.4 million, including U.S. federal excise tax expense/(benefit) of $1.8 million and $1.6 million, respectively.

Taxable Subsidiaries

Certain of the Company's consolidated subsidiaries are subject to U.S. federal and state corporate-level income taxes. For the three months ended March 31, 2024 and 2023, the Company recorded a net tax expense of approximately $3.5 million and $1.8 million for taxable subsidiaries, respectively. The income tax expense for the Company's taxable consolidated subsidiaries will vary depending on the level of investment income earnings and realized gains from the exits of investments held by such taxable subsidiaries during the respective periods.

The Company recorded a net deferred tax liability of $32.4 million and $29.0 million as of March 31, 2024 and December 31, 2023, respectively, for taxable subsidiaries, which is significantly related to GAAP to tax outside basis differences in the taxable subsidiaries' investment in certain partnership interests.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with *"ITEM 1. CONSOLIDATED FINANCIAL STATEMENTS."* This discussion contains forward-looking statements, which relate to future events or the future performance or financial condition of Blue Owl Capital Corporation and involves numerous risks and uncertainties, including, but not limited to, those described in our Form 10-K for fiscal year December 31, 2023 and in "ITEM 1A. RISK FACTORS." This discussion also should be read in conjunction with the "Cautionary Statement Regarding Forward Looking Statements" set forth on page 1 of this Quarterly Report on Form 10-Q. Actual results could differ materially from those implied or expressed in any forward-looking statements.

Overview

Blue Owl Capital Corporation (the "Company", "we", "us" or "our") is a Maryland corporation formed on October 15, 2015. We were formed primarily to originate and make loans to, and make debt and equity investments in, U.S. middle market companies. We invest in senior secured or unsecured loans, subordinated loans or mezzanine loans and, to a lesser extent, equity and equity-related securities including warrants, preferred stock and similar forms of senior equity, which may or may not be convertible into a portfolio company's common equity. Our investment objective is to generate current income, and to a lesser extent, capital appreciation by targeting investment opportunities with favorable risk-adjusted returns.

We are managed by Blue Owl Credit Advisors LLC ("the Adviser" or "our Adviser"). The Adviser is registered with the U.S. Securities and Exchange Commission (the "SEC") as an investment adviser under the Investment Advisers Act of 1940, as amended (the "Advisers Act"), an indirect affiliate of Blue Owl Capital Inc. ("Blue Owl") (NYSE: OWL) and part of Blue Owl's Credit platform, which focuses on direct lending. Subject to the overall supervision of our board of directors ("the Board" or "our Board"), the Adviser manages our day-to-day operations, and provides investment advisory and management services to us. The Adviser or its affiliates may engage in certain origination activities and receive attendant arrangement, structuring or similar fees. The Adviser is responsible for managing our business and activities, including sourcing investment opportunities, conducting research, performing diligence on potential investments, structuring our investments, and monitoring our portfolio companies on an ongoing basis through a team of investment professionals.

On July 22, 2019, we closed our initial public offering ("IPO") and our common stock began trading on the New York Stock Exchange ("NYSE") on July 18, 2019. Since July 6, 2023, our common stock trades on the NYSE under the symbol "OBDC."

The Adviser also serves as investment adviser to Blue Owl Capital Corporation II and Blue Owl Credit Income Corp.

Blue Owl consists of three investment platforms: (1) Credit, which focuses on direct lending, (2) GP Strategic Capital, which focuses on providing capital to institutional alternative asset managers, and (3) Real Estate, which focuses on triple net lease real estate strategies. Blue Owl's Credit platform is comprised of the Adviser, Blue Owl Technology Credit Advisors LLC ("OTCA"), Blue Owl Technology Credit Advisors II LLC ("OTCA II"), Blue Owl Credit Private Fund Advisors LLC ("OPFA") and Blue Owl Diversified Credit Advisors LLC ("ODCA" and together with the Adviser, OTCA, OTCA II, and OPFA, the "Blue Owl Credit Advisers"), which also are registered investment advisers. As of March 31, 2024, the Adviser and its affiliates had $91.29 billion of assets under management across Blue Owl's Credit platform.

The management of our investment portfolio is the responsibility of the Adviser and the Diversified Lending Investment Committee. We consider these individuals to be our portfolio managers. The Investment Team is led by Douglas I. Ostrover, Marc S. Lipschultz and Craig W. Packer and is supported by certain members of the Adviser's senior executive team and Blue Owl's Credit platform's investment committees. Blue Owl's Credit platform has four investment committees each of which focuses on a specific investment strategy (Diversified Lending, Technology Lending, First Lien Lending and Opportunistic Lending). Douglas I. Ostrover, Marc S. Lipschultz, Craig W. Packer and Alexis Maged sit on each of Blue Owl's Credit platform's investment committees. In addition to Messers. Ostrover, Lipschultz, Packer and Maged, the Diversified Lending Investment Committee is comprised of Jeff Walwyn, Patrick Linnemann, Meenal Mehta and Logan Nicholson. The Investment Team, under the Diversified Lending Investment Committee's supervision, sources investment opportunities, conducts research, performs due diligence on potential investments, structures our investments and will monitor our portfolio companies on an ongoing basis.

The Diversified Lending Investment Committee meets regularly to consider our investments, direct our strategic initiatives and supervise the actions taken by the Adviser on our behalf. In addition, the Diversified Lending Investment Committee reviews and determines whether to make prospective investments (including approving parameters or guidelines pursuant to which investments in broadly syndicated loans may be bought and sold), structures financings and monitors the performance of the investment portfolio. Each investment opportunity requires the approval of a majority of the Diversified Lending Investment Committee. Follow-on investments in existing portfolio companies may require the Diversified Lending Investment Committee's approval beyond that obtained when the initial investment in the portfolio company was made. In addition, temporary investments, such as those in cash equivalents, U.S. government securities and other high quality debt investments that mature in one year or less, may require approval by the Diversified Lending Investment Committee. The compensation packages of certain Diversified Lending Investment Committee members from the Adviser include various combinations of discretionary bonuses and variable incentive compensation based primarily on performance for services provided and may include shares of Blue Owl.

We may be prohibited under the Investment Company Act of 1940, as amended (the “1940 Act”) from participating in certain transactions with our affiliates without the prior approval of our directors who are not interested persons and, in some cases, the prior approval of the SEC. We, our Adviser and certain affiliates have been granted an order for exemptive relief (as amended, the “Order”) by the SEC to permit us to co-invest with other funds managed by our Adviser or certain of its affiliates, in a manner consistent with our investment objective, positions, policies, strategies and restrictions as well as regulatory requirements and other pertinent factors. Pursuant to the Order, we generally are permitted to co-invest with certain of our affiliates if a “required majority” (as defined in Section 57(o) of the 1940 Act) of our independent directors make certain conclusions in connection with a co-investment transaction, including that (1) the terms of the transactions, including the consideration to be paid, are reasonable and fair to us and our shareholders and do not involve overreaching by us or our shareholders on the part of any person concerned, (2) the transaction is consistent with the interests of our shareholders and is consistent with our investment objective and strategies, (3) the investment by our affiliates would not disadvantage us, and our participation would not be on a basis different from or less advantageous than that on which our affiliates are investing and (4) the proposed investment by us would not benefit our Adviser or its affiliates or any affiliated person of any of them (other than the parties to the transaction), except to the extent permitted by the exemptive relief and applicable law, including the limitations set forth in Section 57(k) of the 1940 Act.

In addition, the Order permits us to continue to co-invest in our existing portfolio companies with certain affiliates that are private funds if such private funds did not have an investment in such existing portfolio company.

The Blue Owl Credit Advisers’ investment allocation policy seeks to ensure equitable allocation of investment opportunities over time between us and other funds managed by our Adviser or its affiliates. As a result of the Order, there could be significant overlap in our investment portfolio and the investment portfolio of the business development companies (“BDCs”), private funds and separately managed accounts managed by the Blue Owl Credit Advisers (collectively, the “Blue Owl Credit Clients”) and/or other funds managed by the Adviser or its affiliates that could avail themselves of the exemptive relief and that have an investment objective similar to ours.

On April 27, 2016, we formed a wholly-owned subsidiary, OR Lending LLC, a Delaware limited liability company, which holds a California finance lenders license. OR Lending LLC makes loans to borrowers headquartered in California. From time to time we may form wholly-owned subsidiaries to facilitate our normal course of business.

Certain consolidated subsidiaries of ours are subject to U.S. federal and state corporate-level income taxes.

We have elected to be regulated as a BDC under the 1940 Act and as a regulated investment company (“RIC”) for tax purposes under the Internal Revenue Code of 1986, as amended (the “Code”). As a result, we are required to comply with various statutory and regulatory requirements, such as:

- the requirement to invest at least 70% of our assets in “qualifying assets”, as such term is defined in the 1940 Act;
- source of income limitations;
- asset diversification requirements; and
- the requirement to distribute (or be treated as distributing) in each taxable year at least 90% of our investment company taxable income and tax-exempt interest for that taxable year.

Our Investment Framework

We are a Maryland corporation organized primarily to originate and make loans to, and make debt and equity investments in, U.S. middle market companies. Our investment objective is to generate current income, and to a lesser extent, capital appreciation by targeting investment opportunities with favorable risk-adjusted returns. Since our Adviser and its affiliates began investment activities in April 2016 through March 31, 2024, our Adviser and its affiliates have originated $99.6 billion aggregate principal amount of investments, of which $95.8 billion of aggregate principal amount of investments prior to any subsequent exits or repayments, was retained by either us or a corporation or fund advised by our Adviser or its affiliates. We seek to participate in transactions sponsored by what we believe to be high-quality private equity and venture capital firms capable of providing both operational and financial resources. We seek to generate current income primarily in U.S. middle market companies, both sponsored and non-sponsored, through direct originations of senior secured loans or originations of unsecured loans, subordinated loans or mezzanine loans, broadly syndicated loans and, to a lesser extent, investments in equity and equity-related securities including warrants, preferred stock and similar forms of senior equity. Except for our specialty financing company investments, our equity investments are typically not control-oriented investments and we may structure such equity investments to include provisions protecting our rights as a minority-interest holder.

We define "middle market companies" generally to mean companies with earnings before interest expense, income tax expense, depreciation and amortization, or "EBITDA," between $10 million and $250 million annually and/or annual revenue of $50 million to $2.5 billion at the time of investment, although we may on occasion invest in smaller or larger companies if an opportunity presents itself. We generally seek to invest in upper middle-market companies with a loan-to-value ratio of 50% or below.

We expect that generally our portfolio composition will be majority debt or income producing securities, which may include "covenant-lite" loans (as defined below), with a lesser allocation to equity or equity-linked opportunities, which we may hold directly or through special purpose vehicles. In addition, we may invest a portion of our portfolio in opportunistic investments and broadly syndicated loans, which will not be our primary focus, but will be intended to enhance returns to our shareholders and from time to time, we may evaluate and enter into strategic portfolio transactions which may result in additional portfolio companies which we are considered to control. These investments may include high-yield bonds and broadly-syndicated loans, including publicly traded debt instruments, which are typically originated and structured by banks on behalf of large corporate borrowers with employee counts, revenues, EBITDAs and enterprise values larger than those of middle market companies described above, and equity investments in portfolio companies that make senior secured loans or invest in broadly syndicated loans or structured products, such as life settlements and royalty interests. In addition, we generally do not intend to invest more than 20% of our total assets in companies whose principal place of business is outside the United States, although we do not generally intend to invest in companies whose principal place of business is in an emerging market. Our portfolio composition may fluctuate from time to time based on market conditions and interest rates.

Covenants are contractual restrictions that lenders place on companies to limit the corporate actions a company may pursue. Generally, the loans in which we expect to invest will have financial maintenance covenants, which are used to proactively address materially adverse changes in a portfolio company's financial performance. However, to a lesser extent, we may invest in "covenant-lite" loans. We use the term "covenant-lite" to refer generally to loans that do not have a complete set of financial maintenance covenants. Generally, "covenant-lite" loans provide borrower companies more freedom to negatively impact lenders because their covenants are incurrence-based, which means they are only tested and can only be breached following an affirmative action of the borrower, rather than by a deterioration in the borrower's financial condition. Accordingly, to the extent we invest in "covenant-lite" loans, we may have fewer rights against a borrower and may have a greater risk of loss on such investments as compared to investments in or exposure to loans with financial maintenance covenants.

We target portfolio companies where we can structure larger transactions. As of March 31, 2024, our average debt investment size in each of our portfolio companies was approximately $56.6 million based on fair value. As of March 31, 2024, our portfolio companies, excluding the investment in Blue Owl Capital Corporation Senior Loan Fund LLC ("OBDC SLF") and certain investments that fall outside of our typical borrower profile and represent 83.1% of our total debt portfolio based on fair value, had weighted average annual revenue of $852 million, weighted average annual EBITDA of $182 million, an average interest coverage of 1.6x and an average net loan-to value of 44%.

The companies in which we invest use our capital to support their growth, acquisitions, market or product expansion, refinancings and/or recapitalizations. The debt in which we invest typically is not rated by any rating agency, but if these instruments were rated, they would likely receive a rating of below investment grade (that is, below BBB- or Baa3), which is often referred to as "high yield" or "junk".

Key Components of Our Results of Operations

Investments

We focus primarily on the direct origination of loans to middle market companies domiciled in the United States.

Our level of investment activity (both the number of investments and the size of each investment) can and will vary substantially from period to period depending on many factors, including the amount of debt and equity capital available to middle market companies, the level of merger and acquisition activity for such companies, the general economic environment and the competitive environment for the types of investments we make.

In addition, as part of our risk strategy on investments, we may reduce the levels of certain investments through partial sales or syndication to additional lenders.

Revenues

We generate revenues primarily in the form of interest income from the investments we hold. In addition, we generate income from dividends on either direct equity investments or equity interests obtained in connection with originating loans, such as options, warrants or conversion rights. Our debt investments typically have a term of three to ten years. As of March 31, 2024, 97.3% of our debt investments based on fair value bear interest at a floating rate, subject to interest rate floors, in certain cases. Interest on our debt investments is generally payable either monthly or quarterly.

Our investment portfolio consists primarily of floating rate loans, and our credit facilities bear interest at floating rates. Macro trends in base interest rates like the Secured Overnight Financing Rate ("SOFR") and any alternative reference rates may affect our net investment income over the long term. However, because we generally originate loans to a small number of portfolio companies each quarter, and those investments vary in size, our results in any given period, including the interest rate on investments that were sold or repaid in a period compared to the interest rate of new investments made during that period, often are idiosyncratic, and reflect the characteristics of the particular portfolio companies that we invested in or exited during the period and not necessarily any trends in our business or macro trends. Generally, because our portfolio consists primarily of floating rate loans, we expect our earnings to benefit from a prolonged higher rate environment.

Loan origination fees, original issue discount and market discount or premium are capitalized, and we accrete or amortize such amounts under U.S. generally accepted accounting principles ("U.S. GAAP") as interest income using the effective yield method for term instruments and the straight-line method for revolving or delayed draw instruments. Repayments of our debt investments can reduce interest income from period to period. The frequency or volume of these repayments may fluctuate significantly. We record prepayment premiums on loans as interest income. We may also generate revenue in the form of commitment, loan origination, structuring, or due diligence fees, fees for providing managerial assistance to our portfolio companies and possibly consulting fees.

Dividend income on equity investments is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded companies.

Our portfolio activity also reflects the proceeds from sales of investments. We recognize realized gains or losses on investments based on the difference between the net proceeds from the disposition and the amortized cost basis of the investment without regard to unrealized gains or losses previously recognized. We record current period changes in fair value of investments that are measured at fair value as a component of the net change in unrealized gains (losses) on investments in the consolidated statement of operations.

Expenses

Our primary operating expenses include the payment of the management fee, the incentive fee, expenses reimbursable under the Administration Agreement and Investment Advisory Agreement, legal and professional fees, interest and other debt expenses and other operating expenses. The management fee and incentive fee compensate our Adviser for work in identifying, evaluating, negotiating, closing, monitoring and realizing our investments.

Except as specifically provided below, all investment professionals and staff of the Adviser, when and to the extent engaged in providing investment advisory and management services to us, the base compensation, bonus and benefits, and the routine overhead expenses of such personnel allocable to such services, are provided and paid for by the Adviser. We bear our allocable portion of the compensation paid by the Adviser (or its affiliates) to our Chief Compliance Officer and Chief Financial Officer and their respective staffs (based on a percentage of time such individuals devote, on an estimated basis, to our business affairs). We bear all other costs and expenses of our operations, administration and transactions, including, but not limited to (i) investment advisory fees, including management fees and incentive fees, to the Adviser, pursuant to the Investment Advisory Agreement; (ii) our allocable portion of overhead and other expenses incurred by the Adviser in performing its administrative obligations under the Administration Agreement; and (iii) all other costs and expenses of its operations and transactions including, without limitation, those relating to:

- the cost of our organization and offerings;
- the cost of calculating our net asset value, including the cost of any third-party valuation services;
- the cost of effecting any sales and repurchases of our common stock and other securities;
- fees and expenses payable under any dealer manager agreements, if any;

- debt service and other costs of borrowings or other financing arrangements;
- costs of hedging;
- expenses, including travel expense, incurred by the Adviser, or members of the investment team, or payable to third parties, performing due diligence on prospective portfolio companies and, if necessary, enforcing our rights;
- transfer agent and custodial fees;
- fees and expenses associated with marketing efforts;
- federal and state registration fees, any stock exchange listing fees and fees payable to rating agencies;
- federal, state and local taxes;
- independent directors' fees and expenses including certain travel expenses;
- costs of preparing financial statements and maintaining books and records and filing reports or other documents with the SEC (or other regulatory bodies) and other reporting and compliance costs, including registration and listing fees, and the compensation of professionals responsible for the preparation of the foregoing;
- the costs of any reports, proxy statements or other notices to our shareholders (including printing and mailing costs), the costs of any shareholder or director meetings and the compensation of investor relations personnel responsible for the preparation of the foregoing and related matters;
- commissions and other compensation payable to brokers or dealers;
- research and market data;
- fidelity bond, directors' and officers' errors and omissions liability insurance and other insurance premiums;
- direct costs and expenses of administration, including printing, mailing, long distance telephone and staff;
- fees and expenses associated with independent audits, outside legal and consulting costs;
- costs of winding up;
- costs incurred in connection with the formation or maintenance of entities or vehicles to hold our assets for tax or other purposes;
- extraordinary expenses (such as litigation or indemnification); and
- costs associated with reporting and compliance obligations under the 1940 Act and applicable federal and state securities laws.

We expect, but cannot assure, that our general and administrative expenses will increase in dollar terms during periods of asset growth, but will decline as a percentage of total assets during such periods.

Leverage

The amount of leverage we use in any period depends on a variety of factors, including cash available for investing, the cost of financing and general economic and market conditions. Generally, our total borrowings are limited so that we cannot incur additional borrowings, including through the issuance of additional debt securities, if such additional indebtedness would cause our asset coverage ratio to fall below 200% or 150%, if certain requirements are met. This means that generally, $1 for every $1 of investor equity (or, if certain conditions are met, we can borrow up to $2 for every $1 of investor equity). In any period, our interest expense will depend largely on the extent of our borrowing, and we expect interest expense will increase as we increase our debt outstanding. In addition, we may dedicate assets to financing facilities. On June 8, 2020, we received shareholder approval for the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the Small Business Credit Availability Act. As a result, effective on June 9, 2020, our asset coverage requirement applicable to senior securities was reduced from 200% to 150%. Our current target leverage ratio is 0.90x-1.25x.

Market Trends

We believe the middle-market lending environment provides opportunities for us to meet our goal of making investments that generate attractive risk-adjusted returns.

Limited Availability of Capital for Middle-Market Companies. The middle market is a large addressable market. According to GE Capital's National Center for the Middle Market Year-End 2023 Middle Market Indicator, there are approximately 200,000 U.S. middle market companies, which have approximately 48 million aggregate employees. Moreover, the U.S. middle market accounts for one-third of private sector gross domestic product ("GDP"). GE defines U.S. middle market companies as those between $10 million and $1 billion in annual revenue, which we believe has significant overlap with our definition of U.S. middle market companies. We believe U.S. middle market companies will continue to require access to debt capital to refinance existing debt, support growth and finance acquisitions. We believe that regulatory and structural factors, industry consolidation and general risk aversion, limit the amount of traditional financing available to U.S. middle-market companies. We believe that many commercial and investment banks have, in recent years, de-emphasized their service and product offerings to middle-market businesses in favor of lending to large corporate clients and managing capital markets transactions. In addition, these lenders may be constrained in their ability to underwrite and hold bank loans and high yield securities for middle-market issuers as they seek to meet existing and future regulatory capital requirements. We also believe that there is a lack of market participants that are willing to hold meaningful amounts of certain middle-market loans. As a result, we believe our ability to minimize syndication risk for a company seeking financing by being able to hold its loans without having to syndicate them, coupled with reduced capacity of traditional lenders to serve the middle-market, present an attractive opportunity to invest in middle-market companies.

Capital Markets Have Been Unable to Fill the Void in U.S. Middle Market Finance Left by Banks Access to underwritten bond and syndicated loan markets is challenging for middle market companies due to loan issue size and liquidity. For example, high yield bonds are generally purchased by institutional investors, such as mutual funds and exchange traded funds ("ETFs") who, among other things, are focused on the liquidity characteristics of the bond being issued in order to fund investor redemptions and/or comply with regulatory requirements. Accordingly, the existence of an active secondary market for bonds is an important consideration in these entities' initial investment decision. Syndicated loans arranged through a bank are done either on a "best efforts" basis or are underwritten with terms plus provisions that permit the underwriters to change certain terms, including pricing, structure, yield and tenor, otherwise known as "flex", to successfully syndicate the loan, in the event the terms initially marketed are insufficiently attractive to investors. Furthermore, banks are generally reluctant to underwrite middle market loans because the arrangement fees they may earn on the placement of the debt generally are not sufficient to meet the banks' return hurdles. Loans provided by companies such as ours provide certainty to issuers in that we have a more stable capital base and have the ability to invest in illiquid assets, and we can commit to a given amount of debt on specific terms, at stated coupons and with agreed upon fees. As we are the ultimate holder of the loans, we do not require market "flex" or other arrangements that banks may require when acting on an agency basis. In addition, our Adviser has teams focused on both liquid credit and private credit and these teams are able to collaborate with respect to syndicated loans.

Secular Trends Supporting Growth for Private Credit. We believe that periods of market volatility, such as the current period of market volatility caused, in part, by elevated inflation and interest rates, and current geopolitical conditions have accentuated the advantages of private credit. The availability of capital in the liquid credit market is highly sensitive to market conditions whereas we believe private lending has proven to be a stable and reliable source of capital through periods of volatility. We believe the opportunity set for private credit will continue to expand even after the public markets reopen to normal levels. Financial sponsors and companies today are familiar with direct lending and have seen firsthand the strong value proposition that a private solution can offer. Scale, certainty of execution and flexibility all provide borrowers with a compelling alternative to the syndicated and high yield markets. Based on our experience, there is an emerging trend where higher quality credits that have traditionally been issuers in the syndicated and high yield markets are increasingly seeking private solutions independent of credit market conditions. In our view, this is supported by financial sponsors wanting to work with collaborative financing partners that have scale and breadth of capabilities. We believe the large amount of uninvested capital held by funds of private equity firms broadly, estimated by Preqin Ltd., an alternative assets industry data and research company, to be $2.7 trillion as of December 31, 2023, will continue to drive deal activity. We expect that private equity sponsors will continue to pursue acquisitions and leverage their equity investments with secured loans provided by companies such as us.

Attractive Investment Dynamics. An imbalance between the supply of, and demand for, middle market debt capital creates attractive pricing dynamics. We believe the directly negotiated nature of middle market financings also generally provides more favorable terms to the lender, including stronger covenant and reporting packages, better call protection, and lender-protective change of control provisions. Additionally, we believe BDC managers' expertise in credit selection and ability to manage through credit cycles has generally resulted in BDCs experiencing lower loss rates than U.S. commercial banks through credit cycles. Further, we believe that historical middle market default rates have been lower, and recovery rates have been higher, as compared to the larger market capitalization, broadly distributed market, leading to lower cumulative losses. Lastly, we believe that in the current environment, lenders with available capital may be able to take advantage of attractive investment opportunities as the economy reopens and may be able to achieve improved economic spreads and documentation terms.

Conservative Capital Structures. Following the global credit crisis, which we define broadly as occurring between mid-2007 and mid-2009, lenders have generally required borrowers to maintain more equity as a percentage of their total capitalization, specifically to protect lenders during economic downturns. With more conservative capital structures, U.S. middle market companies have exhibited higher levels of cash flows available to service their debt. In addition, U.S. middle market companies often are characterized by simpler capital structures than larger borrowers, which facilitates a streamlined underwriting process and, when necessary, restructuring process.

Attractive Opportunities in Investments in Loans. We invest in senior secured or unsecured loans, subordinated loans or mezzanine loans and, to a lesser extent, equity and equity-related securities. We believe that opportunities in senior secured loans are significant because of the floating rate structure of most senior secured debt issuances and because of the strong defensive characteristics of these types of investments. We believe that debt issues with floating interest rates offer a superior return profile as compared with fixed-rate investments, since floating rate structures are generally less susceptible to declines in value experienced by fixed-rate securities in a rising interest rate environment. Senior secured debt also provides strong defensive characteristics. Senior secured debt has priority in payment among an issuer's security holders whereby holders are due to receive payment before junior creditors and equity holders. Further, these investments are secured by the issuer's assets, which may provide protection in the event of a default.

Portfolio and Investment Activity

As of March 31, 2024, based on fair value, our portfolio consisted of 73.0% first lien senior secured debt investments (of which 62% we consider to be unitranche debt investments (including "last out" portions of such loans)), 7.7% second lien senior secured debt investments, 2.2% unsecured debt investments, 3.6% preferred equity investments, 10.7% common equity investments and 2.8% joint ventures. The percentage of our portfolio comprised of second lien senior secured debt investments decreased compared to December 31, 2023 as a result of origination and repayment activity. A meaningful portion of repayments in the quarter were of second lien secured debt investments, while originations were primarily in first lien senior secured debt investments.

As of March 31, 2024, our weighted average total yield of the portfolio at fair value and amortized cost was 11.5% and 11.6%, respectively, and our weighted average yield of accruing debt and income producing securities at fair value and amortized cost was 12.1% and 12.3%, respectively. Refer to our weighted average yields and interest rates table for more information on our calculation of weighted average yields. As of March 31, 2024, the weighted average spread of total debt investments was 6.6%.

As of March 31, 2024, we had investments in 198 portfolio companies with an aggregate fair value of $12.41 billion. As of March 31, 2024 we had net leverage of 1.04x debt-to-equity, which is within our target range.

We generally expect our originations to match or exceed the pace of repayments over each quarter. The current lending environment has seen an increase in public market activity and merger and acquisition activity is currently limited. As a result, repayments exceeded originations during the quarter ended March 31, 2024. This also resulted in a small decrease in leverage. In addition, second lien investments accounted for a meaningful portion of repayments during the quarter. This capital was redeployed in predominantly first lien originations. As a result, our portfolio is more heavily weighted towards first lien investments which generally bear interest at a lower rate. We expect origination activity to increase in the future because of the amount of undeployed capital private equity firms have available and as there is further clarity on the interest rate environment.

The credit quality of our portfolio has been consistent. We continue to focus on investing in industries we view as recession resistant and that we are familiar with, including service-oriented sectors such as software and healthcare, all of which serve diversified and durable end markets. Blue Owl serves as the administrative agent on many of our investments and the majority of our investments are supported by sophisticated financial sponsors who provide operational and financial resources. Our borrowers have a weighted average EBITDA of $182 million and we believe this scale contributes to the durability of our borrowers and their ability to adapt to different economic environments. Our second lien borrowers are even larger, with an average enterprise value approximately two times that of our first lien investments. In addition, Blue Owl continues to invest in transactions in excess of $1 billion in size, which gives us the ability to structure the terms and spreads of such deals to include wider spreads, lower loan to values, extended call protection, attractive leverage profiles and credit protection. We are continuing to monitor the effect that continued elevated interest rate environment may have on our portfolio companies and our investment activities.

Many of the companies in which we invest are continuing to see modest growth in both revenues and EBITDA. However, in the event of further geopolitical, economic and financial market instability, in the U.S. and elsewhere, or in the event of continued high interest rates, it is possible that the results of some of the middle market companies similar to those in which we invest could be challenged. While we are not seeing signs of an overall, broad deterioration in our results or those of our portfolio companies at this time, there can be no assurance that the performance of certain of our portfolio companies will not be negatively impacted by economic conditions, which could have a negative impact on our future results.

We also continue to invest in OBDC SLF and specialty financing portfolio companies, including Wingspire Capital Holdings LLC ("Wingspire"), Fifth Season Investments LLC ("Fifth Season"), LSI Financing DAC 1 ("LSI Financing"), and AAM Series 1.1 Rail and Domestic Intermodal Feeder, LLC and AAM Series 2.1 Aviation Feeder, LLC (collectively, "Amergin AssetCo"). In the future we may invest through additional specialty finance portfolio companies, joint ventures, partnerships or other special purpose vehicles. These companies may use our capital to support acquisitions which could continue to lead to increased dividend income supported by well-diversified underlying portfolios. See "*Specialty Financing Portfolio Companies.*"

The weighted average yield of our accruing debt and income producing securities is not the same as a return on investment for our shareholders but, rather, relates to our investment portfolio and is calculated before the payment of all of our and our subsidiaries' fees and expenses. The weighted average yield was computed using the effective interest rates as of each respective date, including accretion of original issue discount and loan origination fees, but excluding investments on non-accrual status, if any. There can be no assurance that the weighted average yield will remain at its current level.

Our Adviser monitors our portfolio companies on an ongoing basis. It monitors the financial trends of each portfolio company to determine if they are meeting their respective business plans and to assess the appropriate course of action with respect to each portfolio company. Our Adviser has several methods of evaluating and monitoring the performance and fair value of our investments, which may include the following:

- assessment of success of the portfolio company in adhering to its business plan and compliance with covenants;
- periodic and regular contact with portfolio company management and, if appropriate, the financial or strategic sponsor, to discuss financial position, requirements and accomplishments;
- comparisons to other companies in the portfolio company's industry; and
- review of monthly or quarterly financial statements and financial projections for portfolio companies.

As part of the monitoring process, our Adviser employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, our Adviser rates the credit risk of all investments on a scale of 1 to 5. This system is intended primarily to reflect the underlying risk of a portfolio investment relative to our initial cost basis in respect of such portfolio investment (i.e., at the time of origination or acquisition), although it may also take into account the performance of the portfolio company's business, the collateral coverage of the investment and other relevant factors. The rating system is as follows:

Investment Rating	Description
1	Investments rated 1 involve the least amount of risk to our initial cost basis. The borrower is performing above expectations, and the trends and risk factors for this investment since origination or acquisition are generally favorable;
2	Investments rated 2 involve an acceptable level of risk that is similar to the risk at the time of origination or acquisition. The borrower is generally performing as expected and the risk factors are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a rating of 2;
3	Investments rated 3 involve a borrower performing below expectations and indicates that the loan's risk has increased somewhat since origination or acquisition;
4	Investments rated 4 involve a borrower performing materially below expectations and indicates that the loan's risk has increased materially since origination or acquisition. In addition to the borrower being generally out of compliance with debt covenants, loan payments may be past due (but generally not more than 120 days past due); and
5	Investments rated 5 involve a borrower performing substantially below expectations and indicates that the loan's risk has increased substantially since origination or acquisition. Most or all of the debt covenants are out of compliance and payments are substantially delinquent. Loans rated 5 are not anticipated to be repaid in full and we will reduce the fair market value of the loan to the amount we anticipate will be recovered.

Our Adviser rates the investments in our portfolio at least quarterly and it is possible that the rating of a portfolio investment may be reduced or increased over time. For investments rated 3, 4 or 5, our Adviser enhances its level of scrutiny over the monitoring of such portfolio company.

The Adviser has built out its portfolio management team to include workout experts who closely monitor our portfolio companies and who, on at least a quarterly basis, assess each portfolio company's operational and liquidity exposure and outlook to understand and mitigate risks; and, on at least a monthly basis, evaluates existing and newly identified situations where operating results are deviating from expectations. As part of its monitoring process, the Adviser focuses on projected liquidity needs and where warranted, re-underwriting credits and evaluating downside and liquidation scenarios.

The Adviser focuses on downside protection by leveraging existing rights available under our credit documents; however, for investments that are significantly underperforming or which may need to be restructured, the Adviser's workout team partners with the Investment Team and all material amendments, waivers and restructurings require the approval of a majority of the Diversified Lending Investment Committee. As of March 31, 2024, only five of our portfolio companies are on non-accrual. Our annual gain/loss ratio is approximately 0.14%.

The table below presents the composition of our portfolio on the 1 to 5 rating scale as of the following periods:

Total	$ 10,437,685	100.0 %	$ 10,862,684	100.0 %

Loans are generally placed on non-accrual status when there is reasonable doubt that principal or interest will be collected in full. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest is paid current and, in management's judgment, are likely to remain current. Management may make exceptions to this treatment and determine to not place a loan on non-accrual status if the loan has sufficient collateral value and is in the process of collection.

	For the Three Months Ended March 31,	
($ in millions)	2024	2023
Total Investment Income	$ 399.6	$ 377.6
Less: Operating expenses	211.6	196.4
Net Investment Income (Loss) Before Taxes	$ 188.0	$ 181.2

Net realized gain (loss)	(6.9)	(52.6)
Net Increase (Decrease) in Net Assets Resulting from Operations	$ 182.5	$ 201.8

Net increase (decrease) in net assets resulting from operations can vary from period to period as a result of various factors, including the level of new investment commitments, expenses, the recognition of realized gains and losses and changes in unrealized appreciation and depreciation on the investment portfolio. For the period ended March 31, 2024, our net asset value per share increased, primarily driven by earnings in excess of our dividends paid.

Investment Income

The table below presents investment income for the following periods:

	For the Three Months Ended March 31,	
($ in millions)	2024	2023
Interest income from investments	$ 302.6	$ 291.4
Payment-in-kind interest income from investments	41.4	43.1
Dividend income from investments	50.1	39.8
Other income	5.5	3.3
Total investment income	$ 399.6	$ 377.6

For the three months ended March 31, 2024 and 2023

Investment income increased to $399.6 million for the three months ended March 31, 2024 from $377.6 million for the same period in prior year primarily due to an increase in interest income earned from prepayment fees and accelerated amortization of upfront fees from unscheduled paydowns (which are non-recurring in nature), partially offset by a decrease in our debt investments portfolio at par from $11.7 billion as of March 31, 2023 to $10.6 billion as of March 31, 2024. These fees increased to $10.6 million for the three months ended March 31, 2024 from $0.7 million for the same period in prior year due to an increase in repayment activity for the period. For the three months ended March 31, 2024 and 2023, payment-in-kind income represented 12.9% and 14.0% of investment income, respectively. Dividend income increased to $50.1 million from $39.8 million in the prior period, primarily due to an increase in dividends earned from our controlled, affiliated and non-controlled, affiliated equity investments. Other income increased period-over-period due to an increase in incremental fee income, which are fees that are generally available to us as a result of closing investments and normally paid at the time of closing. We expect that investment income will vary based on a variety of factors including the pace of our originations and repayments.

Expenses

The table below presents our expenses for the following periods:

Under the terms of the Administration Agreement, we reimburse the Adviser for services performed for us. In addition, pursuant to the terms of the Administration Agreement, the Adviser may delegate its obligations under the Administration Agreement to an affiliate or to a third party and we reimburse the Adviser for any services performed for us by such affiliate or third party.

For the three months ended March 31, 2024 and 2023

Total expenses increased to $211.6 million for the three months ended March 31, 2024 from $196.4 million for the same period in the prior year primarily due to an increase in interest expense. The increase in interest expense was driven by an increase in the average interest rate to 5.8% from 5.2% period over period while our average daily borrowings outstanding stayed consistent at $7.5 billion during both periods. As a percentage of total assets, management fees, incentive fees, professional fees, directors' fees and other general and administrative expenses remained relatively consistent period over period.

Income Taxes, Including Excise Taxes

We have elected to be treated as a RIC under Subchapter M of the Code, and we intend to operate in a manner so as to continue to qualify for the tax treatment applicable to RICs. To qualify for tax treatment as a RIC, we must, among other things, distribute to our shareholders in each taxable year generally at least 90% of our investment company taxable income, as defined by the Code, and net tax-exempt income for that taxable year. In addition, a RIC may, in certain cases, satisfy this distribution requirement by distributing dividends relating to a taxable year after the close of such taxable year under the "spillover dividend" provisions of subchapter M. As of March 31, 2024 we have generated undistributed taxable earnings "spillover" of $0.30 per share. The undistributed taxable earnings spillover will be carried forward toward distributions to be paid in accordance with RIC requirements. To maintain our tax treatment as a RIC, we, among other things, intend to make the requisite distributions to our shareholders, which generally relieves us from U.S. federal income taxes at corporate rates.

Depending on the level of taxable income earned in a tax year, we can be expected to carry forward taxable income (including net capital gains, if any) in excess of current year dividend distributions from the current tax year into the next tax year and pay a nondeductible 4% U.S. federal excise tax on such taxable income, as required. To the extent that we determine that our estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such income, we will accrue excise tax on estimated excess taxable income.

For the three months ended March 31, 2024 and 2023, we recorded U.S. federal income tax expense/(benefit) of $5.2 million and $3.4 million, respectively, including U.S. federal excise tax expense/(benefit) of $1.8 million and $1.6 million, respectively.

Certain of our consolidated subsidiaries are subject to U.S. federal and state income taxes. For the three months ended March 31, 2024 and 2023, we recorded a net tax expense of approximately $3.5 million and $1.8 million for taxable subsidiaries, respectively. The income tax expense for our taxable consolidated subsidiaries will vary depending on the level of investment income earnings and realized gains from the exits of investments held by such taxable subsidiaries during the respective periods.

Net Unrealized Gains (Losses)

We fair value our portfolio investments quarterly and any changes in fair value are recorded as unrealized gains or losses. During the following periods, net unrealized gains (losses) were:

	For the Three Months Ended March 31,	
($ in millions)	**2024**	**2023**
Net change in unrealized gain (loss) on investments	$ 8.6	$ 75.7

Net change in unrealized gain (loss)	$ 6.7	$ 76.6

(1) Rounds to less than $0.1 for the period ended March 31, 2024.

For the Three Months Ended March 31, 2024 and 2023

For the three months ended March 31, 2024, the net unrealized gain was primarily driven by an increase in the fair value of certain debt and equity investments as well as reversals of prior period unrealized losses that were realized during the period in connection with the restructuring of certain debt investments as compared to December 31, 2023. This was partially offset by decreases in the fair value of certain debt investments as further detailed below. The ten largest contributors to the change in net unrealized gain (loss) on investments during the following period consisted of the following:

For the Three Months Ended March 31, 2024

For the three months ended March 31, 2023, the net unrealized gain was primarily driven by an increase in the fair value of our debt investments as compared to December 31, 2022. As of March 31, 2023, the fair value of our debt investments as a percentage of principal was 97.1%, as compared to 97.0% as of December 31, 2022. The primary drivers of our portfolio's unrealized gain were due to current market conditions and reversals of prior period unrealized losses that were realized in the quarter in connection with the restructuring of certain debt investments. The ten largest contributors to the change in net unrealized gain (loss) on investments during the following period consisted of the following:

Realized Gross Internal Rate of Return

Since we began investing in 2016 through March 31, 2024, our exited investments have resulted in an aggregate cash flow realized gross internal rate of return to us of approximately 10% (based on total capital invested of $12.72 billion and total proceeds from these exited investments of $15.48 billion.

IRR, is a measure of our discounted cash flows (inflows and outflows). Specifically, IRR is the discount rate at which the net present value of all cash flows is equal to zero. That is, IRR is the discount rate at which the present value of total capital invested in each of our investments is equal to the present value of all realized returns from that investment. Our IRR calculations are unaudited.

Capital invested, with respect to an investment, represents the aggregate cost basis allocable to the realized or unrealized portion of the investment, net of any upfront fees paid at closing for the term loan portion of the investment.

Realized returns, with respect to an investment, represents the total cash received with respect to each investment, including all amortization payments, interest, dividends, prepayment fees, upfront fees (except upfront fees paid at closing for the term loan portion of an investment), administrative fees, agent fees, amendment fees, accrued interest, and other fees and proceeds.

Gross IRR, with respect to an investment, is calculated based on the dates that we invested capital and dates we received distributions, regardless of when we made distributions to our shareholders. Initial investments are assumed to occur at time zero.

Gross IRR reflects historical results relating to our past performance and is not necessarily indicative of our future results. In addition, gross IRR does not reflect the effect of management fees, expenses, incentive fees or taxes borne, or to be borne, by us or our shareholders, and would be lower if it did.

Aggregate cash flow realized gross IRR on our exited investments reflects only invested and realized cash amounts as described above, and does not reflect any unrealized gains or losses in our portfolio.

Financial Condition, Liquidity and Capital Resources

Our liquidity and capital resources are generated primarily from cash flows from interest, dividends and fees earned from our investments and principal repayments, our credit facilities, debt securitization transactions, and other secured and unsecured debt. We may also generate cash flow from operations, future borrowings and future offerings of securities including public and/or private issuances of debt and/or equity securities through both registered offerings off of our shelf registration statement and private offerings.

The primary uses of our cash are (i) investments in portfolio companies and other investments and to comply with certain portfolio diversification requirements, (ii) the cost of operations (including paying or reimbursing our Adviser), (iii) debt service, repayment and other financing costs of any borrowings and (iv) cash distributions to the holders of our shares.

We may from time to time enter into additional credit facilities, increase the size of our existing credit facilities, enter into additional debt securitization transactions, or issue additional debt securities. Any such incurrence or issuance would be subject to prevailing market conditions, our liquidity requirements, contractual and regulatory restrictions and other factors. In accordance with the 1940 Act, with certain limited exceptions, we are only allowed to incur borrowings, issue debt securities or issue preferred stock, if immediately after the borrowing or issuance, the ratio of total assets (less total liabilities other than indebtedness) to total indebtedness plus preferred stock, is at least 150%. Our current target ratio is 0.90x-1.25x. As of March 31, 2024, our weighted average total cost of debt was 6.4%. In addition, from time to time, we may seek to retire, repurchase, or exchange debt securities in open market purchases or by other means, including privately negotiated transactions, in each case dependent on market conditions, liquidity, contractual obligations, and other matters. The amounts involved in any such transactions, individually or in the aggregate, may be material.

As of March 31, 2024 and December 31, 2023, our asset coverage ratio was 185% and 183%, respectively. We seek to carefully consider our unfunded commitments for the purpose of planning our ongoing financial leverage. Further, we maintain sufficient borrowing capacity within the 150% asset coverage limitation to cover any outstanding unfunded commitments we are required to fund.

Cash and restricted cash as of March 31, 2024, taken together with our available debt, is expected to be sufficient for our investing activities and to conduct our operations in the near term. As of March 31, 2024, we had $1.70 billion available under our credit facilities.

Our long-term cash needs will include principal payments on outstanding indebtedness and funding of additional portfolio investments. Funding for long-term cash needs will come from unused net proceeds from financing activities. We believe that our liquidity and sources of capital are adequate to satisfy our short and long-term cash requirements. We cannot, however, be certain that these sources of funds will be available at a time and upon terms acceptable to us in sufficient amounts in the future.

As of March 31, 2024, we had $742.8 million in cash and restricted cash. During the three months ended March 31, 2024, $444.2 million in cash was provided by operating activities, primarily as a result of sell downs and repayments of $1.39 billion offset by funding portfolio investments of $1.03 billion and other operating activity of $86.5 million. Lastly, cash used in financing activities was $361.0 million during the period, which was primarily the result of distributions paid of $167.6 million, debt issuance costs of $17.6 million, and net repayments on debt of $175.8 million.

Distributions

The following tables present the distributions declared on shares of the Company’s common stock for the following periods:

	For the Three Months Ended March 31, 2024		
Date Declared	**Record Date**	**Payment Date**	**Distribution per Share**
February 21, 2024	March 29, 2024	April 15, 2024	$ 0.37
February 21, 2024 (supplemental dividend)	March 1, 2024	March 15, 2024	$ 0.08

	For the Three Months Ended March 31, 2023		
Date Declared	**Record Date**	**Payment Date**	**Distribution per Share**
February 21, 2023	March 31, 2023	April 14, 2023	$ 0.33
February 21, 2023 (supplemental dividend)	March 3, 2023	March 17, 2023	$ 0.04

During certain periods, our distributions may exceed our earnings. As a result, it is possible that a portion of the distributions we make may represent a return of capital. A return of capital generally is a return of a shareholder’s investment rather than a return of earnings or gains derived from our investment activities. Each year, a statement on Form 1099-DIV identifying the tax character of the distributions will be mailed to our shareholders. The tax character of the distributions are not determined until our taxable year end.

Dividend Reinvestment

Pursuant to our second amended and restated dividend reinvestment plan, we will reinvest all cash distributions declared by the Board on behalf of our shareholders who do not elect to receive their distribution in cash as provided below. As a result, if the Board authorizes, and we declare, a cash dividend or other distribution, then our shareholders who have not opted out of our dividend reinvestment plan will have their cash distributions automatically reinvested in additional shares of our common stock as described below, rather than receiving the cash dividend or other distribution. Any fractional share otherwise issuable to a participant in the dividend reinvestment plan will instead be paid in cash.

If newly issued shares are used to implement the dividend reinvestment plan, the number of shares to be issued to a shareholder will be determined by dividing the total dollar amount of the cash dividend or distribution payable to a shareholder by the market price per share of our common stock at the close of regular trading on the New York Stock Exchange on the payment date of a distribution, or if no sale is reported for such day, the average of the reported bid and ask prices. However, if the market price per share on the payment date of a cash dividend or distribution exceeds the most recently computed net asset value per share, we will issue shares at the greater of (i) the most recently computed net asset value per share and (ii) 95% of the current market price per share (or such lesser discount to the current market price per share that still exceeded the most recently computed net asset value per share). For example, if the most recently computed net asset value per share is $15.00 and the market price on the payment date of a cash dividend is $16.00 per share, we will issue shares at $15.20 per share (95% of the current market price). If the most recently computed net asset value per share is $15.00 and the market price on the payment date of a cash dividend is $15.50 per share, we will issue shares at $15.00 per share, as net asset value is greater than 95% ($14.73 per share) of the current market price. Pursuant to our second amended and restated dividend reinvestment plan, if shares are purchased in the open market to implement the dividend reinvestment plan, the number of shares to be issued to a shareholder shall be determined by dividing the dollar amount of the cash dividend payable to such shareholder by the weighted average price per share for all shares purchased by the plan administrator in the open market in connection with the dividend. Shareholders who receive distributions in the form of shares of common stock will be subject to the same U.S. federal, state and local tax consequences as if they received cash distributions.

The tables below present the shares distributed pursuant to the dividend reinvestment plan for the following periods:

Certain of our wholly owned subsidiaries are parties to credit facilities (the “SPV Asset Facilities”). Pursuant to the SPV Asset Facilities, we sell and contribute certain investments to these wholly owned subsidiaries pursuant to sale and contribution agreements by and between us and the wholly owned subsidiaries. No gain or loss is recognized as a result of these contributions. Proceeds from the SPV Asset Facilities are used to finance the origination and acquisition of eligible assets by the wholly owned subsidiary, including the purchase of such assets from us. We retain a residual interest in assets contributed to or acquired to the wholly owned subsidiary through our ownership of the wholly owned subsidiary.

SPV Asset Facility III

On December 14, 2018 (the "SPV Asset Facility III Closing Date"), ORCC Financing III LLC ("ORCC Financing III"), a Delaware limited liability company and our subsidiary, entered into a Loan Financing and Servicing Agreement (the "SPV Asset Facility III"), with ORCC Financing III, as borrower, us, as equity holder and services provider, the lenders from time to time parties thereto (the "SPV Asset Facility III Lenders"), Deutsche Bank AG, New York Branch, as Facility Agent, State Street Bank and Trust Company, as Collateral Agent and Cortland Capital Market Services LLC, as Collateral Custodian. The parties to the SPV Asset Facility III entered into various amendments, including those relating to the undrawn fee and make-whole fee and definition of "Change of Control." The following describes the terms of SPV Asset Facility III as of its termination on March 9, 2023 (the "SPV Asset Facility III Termination Date").

From time to time, we sold and contributed certain loan assets to ORCC Financing III pursuant to a Sale and Contribution Agreement by and between us and ORCC Financing III. No gain or loss was recognized as a result of the contribution. Proceeds from the SPV Asset Facility III were used to finance the origination and acquisition of eligible assets by ORCC Financing III, including the purchase of such assets from us. We retained a residual interest in assets contributed to or acquired by ORCC Financing III through our ownership of ORCC Financing III. The maximum principal amount of the SPV Asset Facility III was $250.0 million; the availability of this amount was subject to a borrowing base test, which was based on the value of ORCC Financing III's assets from time to time, and satisfaction of certain conditions, including interest spread and weighted average coupon tests, certain concentration limits and collateral quality tests.

The SPV Asset Facility III provided for the ability to borrow, reborrow, repay and prepay advances under the SPV Asset Facility III until June 14, 2023 unless such period was extended or accelerated under the terms of the SPV Asset Facility III (the "SPV Asset Facility III Revolving Period"). Prior to the SPV Asset Facility III Termination Date, proceeds received by ORCC Financing III from principal and interest, dividends, or fees on assets were required to be used to pay fees, expenses and interest on outstanding advances, and the excess returned to us, subject to certain conditions. On the SPV Asset Facility III Termination Date, ORCC Financing III repaid in full all outstanding fees and expenses and all principal and interest on outstanding advances.

Amounts drawn bore interest at term SOFR (or, in the case of certain SPV Asset Facility III Lenders that are commercial paper conduits, the lower of (a) their cost of funds and (b) term SOFR, such term SOFR not to be lower than zero) plus a spread equal to 2.20% per annum, which spread would have increased (a) on and after the end of the SPV Asset Facility III Revolving Period by 0.15% per annum if no event of default had occurred and (b) by 2.00% per annum upon the occurrence of an event of default (such spread, the "Applicable Margin"). Term SOFR may have been replaced as a base rate under certain circumstances. We predominantly borrowed utilizing SOFR rate loans, generally electing one-month SOFR upon borrowing. During the SPV Asset Facility III Revolving Period, ORCC Financing III paid an undrawn fee ranging from 0.25% to 0.50% per annum on the undrawn amount, if any, of the revolving commitments in the SPV Asset Facility III. During the SPV Asset Facility III Revolving Period, if the undrawn commitments were in excess of a certain portion (initially 20% and increasing in stages to 75%) of the total commitments under the SPV Asset Facility III, ORCC Financing III would also have paid a make-whole fee equal to the Applicable Margin multiplied by such excess undrawn commitment amount, reduced by the undrawn fee payable on such excess. The SPV Asset Facility III contained customary covenants, including certain financial maintenance covenants, limitations on the activities of ORCC Financing III, including limitations on incurrence of incremental indebtedness, and customary events of default. The SPV Asset Facility III was secured by a perfected first priority security interest in the assets of ORCC Financing III and on any payments received by ORCC Financing III in respect of those assets. Assets pledged to the SPV Asset Facility III Lenders were not available to pay our debts. For further details, see *"ITEM 1. – Notes to Consolidated Financial Statements – Note 5. Debt."*

SPV Asset Facility IV

On August 2, 2019 (the "SPV Asset Facility IV Closing Date"), ORCC Financing IV LLC ("ORCC Financing IV"), a Delaware limited liability company and our newly formed subsidiary, entered into a Credit Agreement (the "SPV Asset Facility IV"), with ORCC Financing IV, as borrower, Société Générale, as initial Lender and as Administrative Agent, State Street Bank and Trust Company, as Collateral Agent, Collateral Administrator and Custodian, and Cortland Capital Market Services LLC as Document Custodian and the lenders from time to time party thereto pursuant to Assignment and Assumption Agreements (the "SPV Asset Facility IV Lenders").

On March 11, 2022 (the "SPV Asset Facility IV Amendment Date"), the parties to the SPV Asset Facility IV amended the SPV Asset Facility IV to extend the reinvestment period from April 1, 2022 until October 3, 2022 and the stated maturity from April 1, 2030 to October 1, 2030. The amendment also changed the applicable interest rate from LIBOR plus an applicable margin of 2.15% during the reinvestment period and LIBOR plus an applicable margin of 2.40% after the reinvestment period to term SOFR plus an applicable margin of 2.30% during the reinvestment period and term SOFR plus an applicable margin of 2.55% after the reinvestment period.

From time to time, we sold and contributed certain investments to ORCC Financing IV pursuant to a Sale and Contribution Agreement by and between us and ORCC Financing IV. The SPV Asset Facility IV was terminated on October 3, 2022 (the "SPV Asset Facility IV Termination Date"). No gain or loss was recognized as a result of the contribution. Proceeds from the SPV Asset Facility IV were used to finance the origination and acquisition of eligible assets by ORCC Financing IV, including the purchase of such assets from us. We retained a residual interest in assets contributed to or acquired by ORCC Financing IV through our ownership of ORCC Financing IV. The maximum principal amount of the SPV Asset Facility IV was $250.0 million; the availability of this amount was subject to an overcollateralization ratio test, which was based on the value of ORCC Financing IV's assets from time to time, and satisfaction of certain conditions, including an interest coverage ratio test, certain concentration limits and collateral quality tests.

The SPV Asset Facility IV provided for the ability to (1) draw term loans and (2) draw and redraw revolving loans under the SPV Asset Facility IV until the last day of the reinvestment period unless the revolving commitments are terminated or converted to term loans sooner as provided in the SPV Asset Facility IV (the "SPV Asset Facility IV Commitment Termination Date"). Prior to the SPV Asset Facility IV Termination Date, proceeds received by ORCC Financing IV from principal and interest, dividends, or fees on assets were required to be used to pay fees, expenses and interest on outstanding borrowings, and the excess may be returned to us, subject to certain conditions. On the SPV Asset Facility IV Termination Date, ORCC Financing IV repaid in full all outstanding fees and expenses and all principal and interest on outstanding borrowings.

From the SPV Asset Facility IV Closing Date to the SPV Asset Facility IV Termination Date, there was a commitment fee ranging from 0.50% to 0.75% per annum on the undrawn amount, if any, of the revolving commitments in the SPV Asset Facility IV. The SPV Asset Facility IV contained customary covenants, including certain financial maintenance covenants, limitations on the activities of ORCC Financing IV, including limitations on incurrence of incremental indebtedness, and customary events of default. The SPV Asset Facility IV was secured by a perfected first priority security interest in the assets of ORCC Financing IV and on any payments received by ORCC Financing IV in respect of those assets. Assets pledged to the SPV Asset Facility IV Lenders were not available to pay our debts. For further details, see *"ITEM 1. – Notes to Consolidated Financial Statements – Note 5. Debt."*

CLOs

CLO I

On May 28, 2019 (the "CLO I Closing Date"), we completed a $596.0 million term debt securitization transaction (the "CLO I Transaction"), also known as a collateralized loan obligation transaction, which is a form of secured financing incurred by us. The secured notes and preferred shares issued in the CLO I Transaction and the secured loan borrowed in the CLO I Transaction were issued and incurred, as applicable, by our consolidated subsidiaries Owl Rock CLO I, Ltd., an exempted company incorporated in the Cayman Islands with limited liability (the "CLO I Issuer"), and Owl Rock CLO I, LLC, a Delaware limited liability company (the "CLO I Co-Issuer" and together with the CLO I Issuer, the "CLO I Issuers") and are backed by a portfolio of collateral obligations consisting of middle market loans and participation interests in middle market loans as well as by other assets of the CLO I Issuer. The following describes the terms of the CLO I Transaction as supplemented through June 28, 2023 (the "CLO I Indenture Supplement Date").

In the CLO I Transaction the CLO I Issuers (A) issued the following notes pursuant to an indenture and security agreement dated as of the CLO I Closing Date (as supplemented by the supplemental indenture dated as of the CLO I Indenture Supplement Date by and among the CLO I Issuer, the CLO I Co-Issuer and State Street Bank and Trust Company, the "CLO I Indenture"), by and among the CLO I Issuers and State Street Bank and Trust Company: (i) $242.0 million of AAA(sf) Class A Notes, which bear interest at term SOFR (plus a spread adjustment) plus 1.80%, (ii) $30.0 million of AAA(sf) Class A-F Notes, which bear interest at a fixed rate of 4.165%, and (iii) $68.0 million of AA(sf) Class B Notes, which bear interest at term SOFR (plus a spread adjustment) plus 2.70% (together, the "CLO I Notes") and (B) borrowed $50.0 million under floating rate loans (the "Class A Loans" and together with the CLO I Notes, the "CLO I Debt"), which bear interest at term SOFR (plus a spread adjustment) plus 1.80%, under a credit agreement (the "CLO I Credit Agreement"), dated as of the CLO I Closing Date, by and among the CLO I Issuers, as borrowers, various financial institutions, as lenders, and State Street Bank and Trust Company, as collateral trustee and loan agent. The Class A Loans may be exchanged by the lenders for Class A Notes at any time, subject to certain conditions under the CLO I Credit Agreement and the CLO I Indenture. The CLO I Debt is scheduled to mature on the Payment Date (as defined in the CLO I Indenture) in May, 2031. The CLO I Notes were privately placed by Natixis Securities Americas, LLC and SG Americas Securities, LLC.

Concurrently with the issuance of the CLO I Notes and the borrowing under the Class A Loans, the CLO I Issuer issued approximately $206.1 million of subordinated securities in the form of 206,106 preferred shares at an issue price of U.S.$1,000 per share (the "CLO I Preferred Shares"). The CLO I Preferred Shares were issued by the CLO I Issuer as part of its issued share capital and are not secured by the collateral securing the CLO I Debt. We own all of the CLO I Preferred Shares, and as such, these securities are eliminated in consolidation. We act as retention holder in connection with the CLO I Transaction for the purposes of satisfying certain U.S. and European Union regulations requiring sponsors of securitization transactions to retain exposure to the performance of the securitized assets and as such is required to retain a portion of the CLO I Preferred Shares.

The Adviser serves as collateral manager for the CLO I Issuer under a collateral management agreement dated as of the CLO I Closing Date. The Adviser is entitled to receive fees for providing these services. The Adviser has waived its right to receive such fees but may rescind such waiver at any time; provided, however, that if the Adviser rescinds such waiver, the management fee payable to the Adviser pursuant to the Investment Advisory Agreement will be offset by the amount of the collateral management fee attributable to the CLO I Issuers' equity or notes that we own.

The CLO I Debt is secured by all of the assets of the CLO I Issuer, which will consist primarily of middle market loans, participation interests in middle market loans, and related rights and the cash proceeds thereof. As part of the CLO I Transaction, we and ORCC Financing II LLC sold and contributed approximately $575.0 million par amount of middle market loans to the CLO I Issuer on the CLO I Closing Date. No gain or loss was recognized as a result of these sales and contributions. Such loans constituted the initial portfolio assets securing the CLO I Debt. We and ORCC Financing II LLC each made customary representations, warranties, and covenants to the CLO I Issuer regarding such sales and contributions under a loan sale agreement.

Through May 20, 2023, a portion of the proceeds received by the CLO I Issuer from the loans securing the CLO I Debt could be used by the CLO I Issuer to purchase additional middle market loans under the direction of the Adviser as the collateral manager for the CLO I Issuer and in accordance with our investing strategy and ability to originate eligible middle market loans.

The CLO I Debt is the secured obligation of the CLO I Issuers, and the CLO I Indenture and the CLO I Credit Agreement include customary covenants and events of default. Assets pledged to holders of the CLO I Debt and the other secured parties under the CLO I Indenture will not be available to pay our debts.

The CLO I Notes were offered in reliance on Section 4(a)(2) of the Securities Act. The CLO I Notes have not been registered under the Securities Act or any state securities (e.g., "blue sky") laws and, unless so registered, may not be offered or sold in the United States absent registration with the Securities and Exchange Commission or pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act as applicable. For further details, see "*ITEM 1. – Notes to Consolidated Financial Statements – Note 5. Debt.*"

CLO I Refinancing

On January 4, 2024 (the "CLO I Refinancing Date"), we completed a $390.0 million term debt securitization refinancing (the "CLO I Refinancing"), also known as a collateralized loan obligation refinancing, which is a form of secured financing incurred by us. The secured notes issued in the CLO I Refinancing and the secured loan borrowed in the CLO I Refinancing were issued and incurred, as applicable, by our subsidiary Owl Rock CLO I, LLC, a limited liability company organized under the laws of the State of Delaware (the "CLO I Refinancing Issuer") and are backed by a portfolio of collateral obligations consisting of middle market loans and participation interests in middle market loans as well as by other assets of the Issuer.

2028 Notes

On June 11, 2021, we issued $450.0 million aggregate principal amount of notes that mature on June 11, 2028 and on August 17, 2021, we issued an additional $400.0 million aggregate principal amount of our 2.875% notes due 2028 (together, the "2028 Notes"). The 2028 Notes bear interest at a rate of 2.875% per year, payable semi-annually on June 11 and December 11, of each year, commencing on December 11, 2021. We may redeem some or all of the 2028 Notes at any time, or from time to time, at a redemption price equal to the greater of (1) 100% of the principal amount of the 2028 Notes to be redeemed or (2) the sum of the present values of the remaining scheduled payments of principal and interest (exclusive of accrued and unpaid interest to the date of redemption) on the 2028 Notes to be redeemed, discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) using the applicable Treasury Rate plus 30 basis points, plus, in each case, accrued and unpaid interest to the redemption date; provided, however, that if we redeem any 2028 Notes on or after April 11, 2028 (the date falling two months prior to the maturity date of the 2028 Notes), the redemption price for the 2028 Notes will be equal to 100% of the principal amount of the 2028 Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the date of redemption. For further details, see "*ITEM 1. – Notes to Consolidated Financial Statements – Note 5. Debt.*"

2029 Notes

On January 22, 2024, we issued $600.0 million aggregate principal amount of notes that mature on March 15, 2029 (the "2029 Notes"). The 2029 Notes bear interest at a rate of 5.95% per year, payable semi-annually on March 15 and September 15, of each year, commencing on September 15, 2024. We may redeem some or all of the 2029 Notes at any time, or from time to time, at a redemption price equal to the greater of (1) 100% of the principal amount of the 2029 Notes to be redeemed or (2) the sum of the present values of the remaining scheduled payments of principal and interest (exclusive of accrued and unpaid interest to the date of redemption) on the 2029 Notes to be redeemed, discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) using the applicable Treasury Rate plus 35 basis points, plus, in each case, accrued and unpaid interest to the redemption date; provided, however, that if we redeems any 2029 Notes on or after February 15, 2029 (the date falling one month prior to the maturity date of the 2029 Notes), the redemption price for the 2029 Notes will be equal to 100% of the principal amount of the 2029 Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the date of redemption.

In connection with the issuance of the 2029 Notes, on February 9, 2024, we entered into centrally cleared interest rate swaps. The notional amount of the interest rate swaps is $600.0 million. We will receive fixed rate interest at 5.95% and pay variable rate interest based on six-month SOFR (plus a spread adjustment) plus 2.118%. The interest rate swaps mature on February 15, 2029. For the three months ended March 31, 2024 we did not make periodic payments. The interest expense related to the 2029 Notes is equally offset by the proceeds received from the interest rate swaps. The swap adjusted interest expense is included as a component of interest expense on our Consolidated Statements of Operations. As of March 31, 2024, the interest rate swap had a fair value of $(5.1) million. Depending on the nature of the balance at period end, the fair value of the interest rate swap is either included as a component of accrued expenses and other liabilities or prepaid expenses and other assets on our Consolidated Statements of Assets and Liabilities. The change in fair value of the interest rate swaps is offset by the change in fair value of the 2029 Notes, with the remaining difference included as a component of interest expense on the Consolidated Statements of Operations.

In addition to the aforementioned agreements, we, our Adviser and certain of our Adviser's affiliates have been granted exemptive relief by the SEC to co-invest with other funds managed by the Adviser or its affiliates, in a manner consistent with our investment objective, positions, policies, strategies and restrictions as well as regulatory requirements and other pertinent factors. See "*ITEM 1. – Notes to Consolidated Financial Statements – Note 3. Agreements and Related Party Transactions*" for further details.

We invest in Wingspire, Amergin AssetCo, Fifth Season and OBDC SLF, controlled affiliated investments, as defined in the 1940 Act. See*"ITEM 1. – Notes to Consolidated Financial Statements – Note 3. Agreements and Related Party Transactions"* for further details.

We invest in LSI Financing, a non-controlled affiliated investment, as defined in the 1940 Act. See "*ITEM 1. – Notes to Consolidated Financial Statements – Note 3. Agreements and Related Party Transactions*" for further details.

Critical Accounting Policies

The preparation of the consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Changes in the economic environment, financial markets, and any other parameters used in determining such estimates could cause actual results to differ. Our critical accounting policies should be read in connection with our risk factors as described in Form 10-K for the fiscal year ended December 31, 2023 in "*ITEM 1A. RISK FACTORS*."

Investments at Fair Value

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds received (excluding prepayment fees, if any) and the amortized cost basis of the investment using the specific identification method without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. The net change in unrealized gains or losses primarily reflects the change in investment values, including the reversal of previously recorded unrealized gains or losses with respect to investments realized during the period.

Rule 2a-5 under the 1940 Act establishes requirements for determining fair value in good faith for purposes of the 1940 Act. Pursuant to Rule 2a-5, the Board designated the Adviser as the Company's valuation designee to perform fair value determinations relating to the value of assets held by the Company for which market quotations are not readily available.

Investments for which market quotations are readily available are typically valued at the average bid price of those market quotations. To validate market quotations, we utilize a number of factors to determine if the quotations are representative of fair value, including the source and number of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available, as is the case for substantially all of our investments, are valued at fair value as determined in good faith by our Adviser, as the valuation designee, based on, among other things, independent third-party valuation firm(s) engaged at the direction of our Adviser.

As part of the valuation process, our Adviser, as the valuation designee takes into account relevant factors in determining the fair value of our investments, including: the estimated enterprise value of a portfolio company (i.e., the total fair value of the portfolio company's debt and equity), the nature and realizable value of any collateral, the portfolio company's ability to make payments based on its earnings and cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, and overall changes in the interest rate environment and the credit markets that may affect the price at which similar investments may be made in the future. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, the Board considers whether the pricing indicated by the external event corroborates its valuation.

Our Adviser, as the valuation designee, undertakes a multi-step valuation process, which includes, among other procedures, the following:

- With respect to investments for which market quotations are readily available, those investments will typically be valued at the average bid price of those market quotations;
- With respect to investments for which market quotations are not readily available, the valuation process begins with the independent valuation firm(s) providing a preliminary valuation of each investment to the Adviser's valuation committee;
- Preliminary valuation conclusions are documented and discussed with the Adviser's valuation committee;
- Our Adviser, as the valuation designee, reviews the recommended valuations and determines the fair value of each investment;
- Each quarter, our Adviser, as the valuation designee, provides the Audit Committee a summary or description of material fair value matters that occurred in the prior quarter and on an annual basis, our Adviser, as the valuation designee, will provide the Audit Committee with a written assessment of the adequacy and effectiveness of its fair value process; and
- The Audit Committee oversees the valuation designee and will report to the Board on any valuation matters requiring the Board's attention.

We conduct this valuation process on a quarterly basis.

We apply ASC 820, which establishes a framework for measuring fair value in accordance with U.S. GAAP and required disclosures of fair value measurements. ASC 820 determines fair value to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. Market participants are defined as buyers and sellers in the principal or most advantageous market (which may be a hypothetical market) that are independent, knowledgeable, and willing and able to transact. In accordance with ASC 820, we consider its principal market to be the market that has the greatest volume and level of activity. ASC 820 specifies a fair value hierarchy that prioritizes and ranks the level of observability of inputs used in determination of fair value. In accordance with ASC 820, these levels are summarized below:

- Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities that we have the ability to access.
- Level 2 – Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Transfers between levels, if any, are recognized at the beginning of the period in which the transfer occurred. In addition to using the above inputs in investment valuations, we apply the valuation policy approved by our Board that is consistent with ASC 820. Consistent with the valuation policy, our Adviser, as the valuation designee, evaluates the source of the inputs, including any markets in which our investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. When an investment is valued based on prices provided by reputable dealers or pricing services (that is, broker quotes), our Adviser, as the valuation designee, subjects those prices to various criteria in making the determination as to whether a particular investment would qualify for treatment as a Level 2 or Level 3 investment. For example, our Adviser, as the valuation designee, or the independent valuation firm(s), review pricing support provided by dealers or pricing services in order to determine if observable market information is being used, versus unobservable inputs.

The Company applies the practical expedient provided by the ASC Topic 820 relating to investments in certain entities that calculate net asset value per share (or its equivalent). ASC Topic 820 permits an entity holding investments in certain entities that either are investment companies, or have attributes similar to an investment company, and calculate NAV per share or its equivalent for which the fair value is not readily determinable, to measure the fair value of such investments on the basis of that NAV per share, or its equivalent, without adjustment. Investments which are valued using NAV per share as a practical expedient are not categorized within the fair value hierarchy as per ASC Topic 820.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of such investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that may ultimately be realized. Further, such investments are generally less liquid than publicly traded securities and may be subject to contractual and other restrictions on resale. If we were required to liquidate a portfolio investment in a forced or liquidation sale, it could realize amounts that are different from the amounts presented and such differences could be material.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected herein.

Financial and Derivative Instruments

Rule 18f-4 requires BDCs that use derivatives to, among other things, comply with a value-at-risk leverage limit, adopt a derivatives risk management program, and implement certain testing and board reporting procedures. Rule 18f-4 exempts BDCs that qualify as “limited derivatives users” from the aforementioned requirements, provided that these BDCs adopt written policies and procedures that are reasonably designed to manage the BDC’s derivatives risks and comply with certain recordkeeping requirements. Rule 18f-4 provides that a BDC may enter into an unfunded commitment agreement that is not a derivatives transaction, such as an agreement to provide financing to a portfolio company, if the BDC has, among other things, a reasonable belief, at the time it enters into such an agreement, that it will have sufficient cash and cash equivalents to meet its obligations with respect to all of its unfunded commitment agreements, in each case as it becomes due. Pursuant to Rule 18f-4, when we trade reverse repurchase agreements or similar financing transactions, including certain tender option bonds, we need to aggregate the amount of any other senior securities representing indebtedness (e.g., bank borrowings, if applicable) when calculating our asset coverage ratio. The Company currently qualifies as a “limited derivatives user” and expects to continue to do so. The Company has adopted a derivatives policy and complies with the recordkeeping requirements of Rule 18f-4.

Interest and Dividend Income Recognition

Interest income is recorded on the accrual basis and includes amortization and accretion of discounts or premiums. Certain investments may have contractual payment-in-kind (“PIK”) interest or dividends. PIK interest or dividends represent accrued interest or dividends that are added to the principal amount of the investment on the respective interest or dividend payment dates rather than being paid in cash and generally becomes due at maturity or at the occurrence of a liquidation event. For the three months ended March 31, 2024, PIK interest and PIK dividend income earned was $41.4 million and $10.1 million representing 10.4% and 2.5% of investment income, respectively. Discounts to par value on securities purchased are amortized into interest income over the contractual life of the respective security using the effective yield method. Premiums to par value on securities purchased are amortized to first call date. The amortized cost of investments represents the original cost adjusted for the amortization or accretion of discounts or premiums, if any. Upon prepayment of a loan or debt security, any prepayment premiums, unamortized upfront loan origination fees and unamortized discounts are recorded as interest income in the current period.

Loans are generally placed on non-accrual status when there is reasonable doubt that principal or interest will be collected in full. Accrued interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management’s judgment regarding collectability. If at any point we believe PIK interest is not expected to be realized, the investment generating PIK interest will be placed on non-accrual status. When a PIK investment is placed on non-accrual status, the accrued, uncapitalized interest or dividends are generally reversed through interest income. Non-accrual loans are restored to accrual status when past due principal and interest is paid current and, in management’s judgment, are likely to remain current. Management may make exceptions to this treatment and determine to not place a loan on non-accrual status if the loan has sufficient collateral value and is in the process of collection.

Dividend income on preferred equity securities is recorded on the accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly-traded portfolio companies.

Distributions

We have elected to be treated for U.S. federal income tax purposes, and qualify annually thereafter, as a RIC under Subchapter M of the Code. To obtain and maintain our tax treatment as a RIC, we must distribute (or be deemed to distribute) in each taxable year distributions for tax purposes equal to at least 90 percent of the sum of our:

- investment company taxable income (which is generally our ordinary income plus the excess of realized short-term capital gains over realized net long-term capital losses), determined without regard to the deduction for dividends paid, for such taxable year; and
- net tax-exempt interest income (which is the excess of our gross tax-exempt interest income over certain disallowed deductions) for such taxable year.

As a RIC, we (but not our shareholders) generally will not be subject to U.S. federal tax on investment company taxable income and net capital gains that we distribute to our shareholders.

We intend to distribute annually all or substantially all of such income. To the extent that we retain our net capital gains or any investment company taxable income, we generally will be subject to U.S. federal income tax at corporate rates. We can be expected to carry forward our net capital gains or any investment company taxable income in excess of current year dividend distributions, and pay the U.S. federal excise tax as described below.

Amounts not distributed on a timely basis in accordance with a calendar year distribution requirement are subject to a nondeductible 4% U.S. federal excise tax payable by us. We may be subject to a nondeductible 4% U.S. federal excise tax if we do not distribute (or are treated as distributing) during each calendar year an amount at least equal to the sum of:

- 98% of our net ordinary income excluding certain ordinary gains or losses for that calendar year;
- 98.2% of our capital gain net income, adjusted for certain ordinary gains and losses, recognized for the twelve-month period ending on October 31 of that calendar year; and
- 100% of any income or gains recognized, but not distributed, in preceding years.

While we intend to distribute any income and capital gains in the manner necessary to minimize imposition of the 4% U.S. federal excise tax, sufficient amounts of our taxable income and capital gains may not be distributed and as a result, in such cases, the excise tax will be imposed. In such an event, we will be liable for this tax only on the amount by which we do not meet the foregoing distribution requirement.

We intend to pay quarterly distributions to our shareholders out of assets legally available for distribution. All distributions will be paid at the discretion of our Board and will depend on our earnings, financial condition, maintenance of our tax treatment as a RIC, compliance with applicable BDC regulations and such other factors as our Board may deem relevant from time to time.

To the extent our current taxable earnings for a year fall below the total amount of our distributions for that year, a portion of those distributions may be deemed a return of capital to our shareholders for U.S. federal income tax purposes. Thus, the source of a distribution to our shareholders may be the original capital invested by the shareholder rather than our income or gains. Shareholders should read written disclosure carefully and should not assume that the source of any distribution is our ordinary income or gains.

We have adopted an “opt out” dividend reinvestment plan for our common shareholders. As a result, if we declare a cash dividend or other distribution, each shareholder that has not “opted out” of our dividend reinvestment plan will have their dividends or distributions automatically reinvested in additional shares of our common stock rather than receiving cash distributions. Shareholders who receive distributions in the form of shares of common stock will be subject to the same U.S. federal, state and local tax consequences as if they received cash distributions.

Income Taxes

We have elected to be treated as a BDC under the 1940 Act. We have also elected to be treated as a RIC under the Code beginning with the taxable year ending December 31, 2016 and intend to continue to qualify as a RIC. So long as we maintain our tax treatment as a RIC, we generally will not pay U.S. federal income taxes at corporate rates on any ordinary income or capital gains that we distribute at least annually to our shareholders as distributions. Rather, any tax liability related to income earned and distributed by us represents obligations of our investors and will not be reflected in our consolidated financial statements.

To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements. In addition, to qualify for RIC tax treatment, we must distribute to our shareholders, for each taxable year, at least 90% of our "investment company taxable income" for that year, which is generally our ordinary income plus the excess of our realized net short-term capital gains over our realized net long-term capital losses. In order for us to not be subject to U.S. federal excise taxes, we must distribute annually an amount at least equal to the sum of (i) 98% of our net ordinary income (taking into account certain deferrals and elections) for the calendar year, (ii) 98.2% of our capital gains in excess of capital losses for the one-year period ending on October 31 of the calendar year and (iii) any net ordinary income and capital gains in excess of capital losses for preceding years that were not distributed during such years. We, at our discretion, may carry forward taxable income in excess of calendar year dividends and pay a 4% nondeductible U.S. excise tax on this income.

Certain consolidated subsidiaries of ours are subject to U.S. federal and state corporate-level income taxes. We evaluate tax positions taken or expected to be taken in the course of preparing our consolidated financial statements to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax positions not deemed to meet the "more-likely-than-not" threshold are reserved and recorded as a tax benefit or expense in the current year. All penalties and interest associated with income taxes are included in income tax expense. Conclusions regarding tax positions are subject to review and may be adjusted at a later date based on factors including, but not limited to, on-going analyses of tax laws, regulations and interpretations thereof. There were no material uncertain tax positions through December 31, 2023. As applicable, our prior three tax years remain subject to examination by U.S. federal, state and local tax authorities.

Joint Venture

On May 6, 2024, we entered into an agreement with each of Blue Owl Capital Corporation II, Blue Owl Capital Corporation III, Blue Owl Credit Income Corp., Blue Owl Technology Finance Corp., Blue Owl Technology Finance Corp. II and Blue Owl Technology Income Corp. (together with us, the “Blue Owl BDCs”) and the State Teachers Retirement System of Ohio (“OSTRS”) to co-manage Blue Owl Credit SLF LLC (“Credit SLF”), a joint venture that is expected to invest primarily in senior secured loans to middle market companies, broadly syndicated loans and in senior and subordinated notes issued by collateralized loan obligations. Each of the Blue Owl BDCs has agreed to initial commitments to Credit SLF totaling $50.0 million in the aggregate, of which we have agreed to contribute $24.5 million, representing an approximately 43% economic ownership. OSTRS will initially commit $7.1 million, representing a 12.5% economic ownership. Credit SLF is managed by a board consisting of an equal number of representatives appointed by each member and which acts unanimously. Investment decisions must be approved by Credit SLF’s board.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are subject to financial market risks, including valuation risk, interest rate risk, currency risk, credit risk and inflation risk.

Valuation Risk

We have invested, and plan to continue to invest, primarily in illiquid debt and equity securities of private companies. Most of our investments will not have a readily available market price, and we value these investments at fair value as determined in good faith by the Adviser, as our valuation designee, based on, among other things, the input of independent third-party valuation firm(s) engaged at the direction of the Adviser, as our valuation designee, and in accordance with our valuation policy. There is no single standard for determining fair value. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments we make. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we may realize amounts that are different from the amounts presented and such differences could be material.

Interest Rate Risk

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. We intend to fund portions of our investments with borrowings, and at such time, our net investment income will be affected by the difference between the rate at which we invest and the rate at which we borrow. Accordingly, we cannot assure you that a significant change in market interest rates will not have a material adverse effect on our net investment income.

In a low interest rate environment, the difference between the total interest income earned on interest earning assets and the total interest expense incurred on interest bearing liabilities may be compressed, reducing our net income and potentially adversely affecting our operating results. Conversely, in a rising interest rate environment, such difference could potentially increase thereby increasing our net income as indicated per the table below.

As of March 31, 2024, 97.3% of our debt investments based on fair value were floating rates. Additionally, the weighted average floor, based on fair value, of our debt investments was 0.8% and the majority of our debt investments have a floor of 1.0%. The Revolving Credit Facility and SPV Asset Facility II bear interest at variable interest rates with a floor of 0%. The 2025 Notes, July 2025 Notes, 2026 Notes, July 2026 Notes, 2027 Notes, 2028 Notes and 2029 Notes bear interest at fixed rates. The 2027 Notes and 2029 Notes are hedged against interest rate swaps instruments. CLO IV and CLO X bear interest at variables rates. CLO I, CLO II, CLO III, CLO V and CLO VII bear interest at fixed and variable rates.

Based on our Consolidated Statements of Assets and Liabilities as of March 31, 2024, the following table shows the annualized impact on net income of hypothetical base rate changes in interest rates on our debt investments (considering interest rate floors for floating rate instruments) assuming each floating rate investment is subject to 3-month reference rate election and there are no changes in our investment and borrowing structure:

($ in millions)	Interest Income	Interest Expense(1)	Net Income(2)
Up 300 basis points	$ 300,507	$ 106,776	$ 193,731
Up 200 basis points	200,338	71,184	129,154
Up 100 basis points	100,169	35,592	64,577
Down 100 basis points	(100,169)	(35,592)	(64,577)
Down 200 basis points	(200,338)	(71,184)	(129,154)
Down 300 basis points	(300,507)	(106,776)	(193,731)

(1) Includes the impact of our interest rate swaps as a result of interest rate changes.

(2) Excludes the impact of income based fees. See *"ITEM 1. — Notes to Consolidated Financial Statements - Note 3. Agreements and Related Party Transactions"* of our consolidated financial statements for more information on the income based fees.

We may in the future hedge against interest rate fluctuations by using hedging instruments such as additional interest rate swaps, futures, options, and forward contracts. While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio investments.

Currency Risk

From time to time, we may make investments that are denominated in a foreign currency. These investments are translated into U.S. dollars at each balance sheet date, exposing us to movements in foreign exchange rates. We may employ hedging techniques to minimize these risks, but we cannot assure you that such strategies will be effective or without risk to us. We may seek to utilize instruments such as, but not limited to, forward contracts to seek to hedge against fluctuations in the relative values of our portfolio positions from changes in currency exchange rates. We also have the ability to borrow in certain foreign currencies under our credit facilities. Instead of entering into a foreign currency forward contract in connection with loans or other investments we have made that are denominated in a foreign currency, we may borrow in that currency to establish a natural hedge against our loan or investment. To the extent the loan or investment is based on a floating rate other than a rate under which we can borrow under our credit facilities, we may seek to utilize interest rate derivatives to hedge our exposure to changes in the associated rate.

Credit Risk

We generally endeavor to minimize our risk of exposure by limiting to reputable financial institutions the counterparties with which we enter into financial transactions. As of March 31, 2024 and December 31, 2023, we held the majority of our cash balances with a single highly rated money center bank and such balances are in excess of Federal Deposit Insurance Corporation insured limits. We seek to mitigate this exposure by monitoring the credit standing of these financial institutions.

Inflation Risk

Inflation is likely to continue in the near to medium-term, particularly in the United States, with the possibility that monetary policy may continue to tighten in response. Persistent inflationary pressures could affect our portfolio companies profit margins.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

In accordance with Rules 13a-15(b) and 15d-15(b) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), we, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q and determined that our disclosure controls and procedures are effective as of the end of the period covered by the Quarterly Report on Form 10-Q.

(b) Changes in Internal Controls Over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the quarter ended March 31, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

Neither we nor the Adviser are currently subject to any material legal proceedings, nor, to our knowledge, are any material legal proceeding threatened against us. From time to time, we may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. Our business is also subject to extensive regulation, which may result in regulatory proceedings against us. While the outcome of any such future legal or regulatory proceedings cannot be predicted with certainty, we do not expect that any such future proceedings will have a material effect upon our financial condition or results of operations.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in Part I, "ITEM 1A. RISK FACTORS" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023, which could materially affect our business, financial condition and/or operating results. The risks described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2023 are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Other than the shares issued pursuant to our dividend reinvestment plan, we did not sell any unregistered equity securities, except as previously disclosed in certain 8-Ks filed with the SEC.

In the first quarter 2024, pursuant to our dividend reinvestment plan, we purchased 524,782 shares of our common stock in the open market, at a weighted average price of $15.10 per share, for distribution to stockholders of record as of December 29, 2023 and March 1, 2024 for the fourth quarter dividend and supplemental fourth quarter dividend, respectively, that did not opt out of our dividend reinvestment plan in order to satisfy the reinvestment portion of our dividends.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Rule 10b5-1 Trading Plans

During the fiscal quarter ended March 31, 2024, none of the Company's directors or executive officersadopted or terminated any contract, instruction or written plan for the purchase or sale of Company securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any "non-Rule 10b5-1 trading arrangement."
